| Ken Harth (Chairman) | 08/10/10 | 08/10/14 | P | A | P | P |
| Carolyn Ross | 03/22/11 | 03/22/15 | A | P | P | A |
| Harry Kohlmann | 03/22/11 | 03/22/15 | P | A | P | P |

| Meeting Date | Action | Purpose |
|--------------|--------|---|
| 01/18/12 | Motion | Request Town Council approve two additional testing sites |
| 04/16/12 | Motion | Recommend vegetated buffer |

Education sessions: Harbor Lights vegetated buffer training
 Water testing goals and objectives
 DDC engineering for the north end
 Eric Smith presented swash testing results
 Murrells Inlet 2020 water shed plan

Testing: Tested two additional sites (Dog Park, Lake Elizabeth) for three months. No problems were found with either site.

Conferences: Attended storm water pond conference

Meetings: The committee held regular meetings on the third Tuesday quarterly as noted above. Educational sessions were held the third Tuesday when required during which members received in-depth training and performed on-site inspections of the town's and neighboring water bodies.

Goals: Provide education opportunities for town residents about maintaining water bodies effectively; managing fowl, and erosion.

Ken Harth, Chairman
