☎ (843) 913-6111 📠 (843) 238-5432

**PUBLIC NOTICE:** Town Council Workshop, Tuesday, August 13, 2013 at 5:30 p.m. to Discuss Horry Georgetown Technical College Signage Recommendations.

**SURFSIDE BEACH TOWN COUNCIL  
REGULAR MEETING AGENDA  
COUNCIL CHAMBERS  
TUESDAY, AUGUST 13, 2013 ♦ 6:30 P.M.**

1. **CALL TO ORDER** – Mayor Douglas F. Samples
2. **INVOCATION AND PLEDGE OF ALLEGIANCE** – Dr. David Powers, The Pilgrimage Church
3. **AGENDA APPROVAL**
4. **MINUTES APPROVAL**
  - A. Special Meeting July 12, 2013
  - B. Regular Meeting July 23, 2013
5. **PUBLIC COMMENTS – Agenda Items Only.** (3-minutes per speaker)
6. **COMMUNICATIONS**
  - A. Proclamation #13-86, Constitution Week -September 17-23, 2013, Mrs. Lyle Werner
  - B. Department Reports
    - i. Fire
    - ii. Planning, Building & Zoning
    - iii. Police
  - C. Administrator's Report - Update on Current Events
7. **BUSINESS**
  - A. Second Readings of Ordinances
    - i. 13-0755 to amend §3-23 Registration of Dogs to exempt Certified Service Dogs from paying registration fee, Administrator Fellner
    - ii. 13-0757 to amend §13-52(d)(8) *Marine Construction*, to eliminate docks, Director Morris
  - B. First Readings of Ordinances
    - i. 13-0754 to amend §2-20(b) Travel Per Diem, Mayor Pro Tempore Mabry and Councilmember Johnson
    - ii. 13-0756 to add Chapter 12, Article 5, Stormwater Retention Ponds allowable boats on town stormwater retention ponds, Councilmember Smith, and Director Morris
    - iii. 13-0758 to amend §9-7 to add Paragraph (7) No parking against traffic flow , Police Chief Keziah

7. **BUSINESS, continued**
  - B. First Readings of Ordinances, *continued*
    - iv. 13-0759 to add §13-23 to require 2 hour fire walls and 15-inch between water closet and shower, Director Morris
    - v. 13-0760 to add §4-30 Solicitation for Town Sponsored, Charity and Nonprofit Events, Administrator Fellner
  - C. Resolution #13-139 to Promote Work Place Safety, Administrator Fellner
  - D. Committee Appointments – (May be deferred until after executive session.)
    - i. Construction Board of Adjustment & Appeals (1 vacancy)
    - ii. Stormwater Committee (1 vacancy) - Alan Beck, volunteer
    - iii. Senior Citizens Committee – (4 vacancies)
      - a. Cindy McLaughlin, resignation
      - b. Joe Buczek, volunteer
      - c. Lonnie Hopkins, volunteer
      - d. George Moustakis, volunteer
      - e. William G. “Bill” Thomas, Jr., volunteer
8. **DISCUSSION** – Any matters of concern or information to be discussed by Town Council.
9. **PUBLIC COMMENTS – General Comments.** (5-minutes per speaker)
10. **COUNCIL COMMENTS**
11. **EXECUTIVE SESSION**
  - A. Pursuant to FOIA §30-4-70(a)(1) to discuss the appointment of a person to a public body (See Business Item 7D above.)
  - B. Pursuant to FOIA §30-4-70(a)(2) to discuss proposed contractual arrangements
12. **ADJOURNMENT**

**SURFSIDE BEACH TOWN COUNCIL  
SPECIAL COUNCIL MEETING MINUTES  
JULY 12, 2013 ♦ 3:00 P.M.  
TOWN COUNCIL CHAMBERS**

**1. CALL TO ORDER.**

Mayor Samples called the special meeting to order at 3:00 p.m. Mayor Samples, Mayor Pro Tempore Mabry, and Councilmembers Johnson, and Kohlmann were in attendance. Councilmembers Dodge, Smith and Stevens were absent. A quorum was present. Others present: Administrator Fellner, Planning Director Morris, Public Works Director Adair, and Town Clerk Herrmann.

**2. PUBLIC COMMENTS – AGENDA ITEMS. (3 minutes).**

"I hope I still know how to do this microphone. For the councilmembers, you know me. My name is Anita S. Hopkins, 712 Cedar Drive North. The reason I am here today is to address Lake Elizabeth and Dogwood Lake, and any impacts, and anything that might be, be [sic] being considered to have additional impact on Lake Elizabeth, and what I mean by any impact is encroachment, it's intrusion, anything that would alter Lake Elizabeth from where it is as of the contract on 20 (\*\*), 2001, January the 11<sup>th</sup>. Under this contract, and I just talked with Steve Gosnell on the phone at 2:30, and he said that a resolution was sent to him and he reviewed it, and he sent it back to the town administrator stating that he didn't see any problem with the dock or whatever they wanted to build down on Dogwood Lake for someone. I don't the gentleman that wants it or the family, but I would say this, that anything that is put into Lake Elizabeth at this point causes the lake to stop flowing and according to what Steve Gosnell is sending me in the mail, and I should have it Monday or Tuesday, is that he has no problem with what we do in this town. He has no jurisdiction. But, and here's the, here's the sticking point, 100-percent of the maintenance and the destruction that we create, and if we put anything in there in Lake Elizabeth other than what it is now, we are 100-percent as the town of Surfside responsible for it, and not only that, we are responsible for an additional 30-percent according to this contract for stormwater. So, 30-percent's bad; we got off light. We didn't pay anything for the million-plus dollars worth of work that took place from, from Business 17 to, to the end of Dogwood Lake. We came out clear. We have nothing on our taxes that says we owe anything to stormwater in the county. The county and the state took care of it. Now, if we go and we fill up our lakes with docks and boats, and we can also take a boat and put it inside and prepare ourselves, but we can't roll up a dock and stick it in and secure it from a major storm, and you know, we've got piers [sic] that go in that Atlantic Ocean that can be taken out. Now, the Hardwick family lost a paddle boat one time that got stuck in the weir, and it started backing it up and it doesn't take but moments for that lake to rise. (*Time ended.*) If you impact anything; you got it. I'll be back."

"Ron Ott, 7<sup>th</sup> Avenue North. I know it's a fact about, and you can check with Nelson Hardwick, where his, it was actually a paddle, paddle boat that got caught in there, and Bobby Radford, even with the backhoe, they tried to get it. It was jammed in the weir. The water started backing up. Within an hour it was almost over seven foot in there, and you can call Bobby or Mr. Nelson there. You can check with them. That's all it takes. Now, imagine if we had a regular storm and what Gosnell's telling you, yeah, yeah, no problem with it, and when he comes down and sees that jammed up, he's gonna say, sayonara; 100-percent for Surfside. You got all the damage that's caused by this water; hope it was worth is. Thank you."

"Holly Watson, 319 North Oak Drive. I called FEMA today along with several other people. FEMA told me today that if the boats and the docks stop up the weir like Mr. Hardwick's previously did and the torrential flood that happens after we fish all this debris out of the weir, when that flooding occurs, they're not responsible. They will not pay or respond to any drainage claims. That means that anybody downstream from Lake Elizabeth, if anything happens to Lake Elizabeth, my property floods, FEMA's not gonna reimbursement me. They're not gonna pay me. What do I do, all because somebody upstream needs a dock? I'm not alone. You all are supposed to be representing our interests, the general public.

56 Not one or two property owners that decide they want a dock on the lake. That's just unacceptable to me.  
57 I worked hard for my home. That represents all my life. That's just unacceptable. My constitutional rights  
58 are being violated here, if you pass this thing. Think about this, not just me, anybody downstream and  
59 you know it flows from north to south, so anybody south of Lake Elizabeth and Dogwood Lake will be  
60 affected, because all the drainage ditches and everything come out of that, too. Now, according to the  
61 Municipal Association about this particular matter, the question remains that we do not know what  
62 happens if a person dives into these lakes. We don't know if there're stumps in there. We don't know  
63 what chemicals are in. We don't know what the toxicity levels are, and the worst part of it is we're missing  
64 a million dollars of our stormwater money, so we will never be able to test for it, because we don't have  
65 the money. So, we, we're up a creek without a paddle; yeah. I wanna know since I feel like my  
66 constitutional rights are being violated here, because I am downstream of where all these are going to be  
67 taking place, evidently, what happens to a handicapped person or the rest of the general public? Where  
68 are you gonna put your public boat launch areas so the rest of the public can use our town-owned lakes,  
69 not just these particular people that surround the lakes. From what I've seen, the general public is fenced  
70 out. They're, that's not acceptable, though. If you're gonna have it open to private owners, then have it  
71 open to the public. It is a public lake, and of course, along with that goes all the handicapped ramps, the  
72 cleanup, the extra patrol, that type thing that goes with it. If not, then somebody else's constitutional  
73 rights are gonna be violated, because you're not opening it up to the general public for recreational use. I  
74 don't think we've thought about all that. The fact that we're here at three p.m. on Friday afternoon; we  
75 just had a council meeting Tuesday, makes me wonder just exactly whose interest are being represented  
76 (*Time ended.*) here. Please search your moral compass to that answer. Thank you."  
77

78 Ms. Lowery: "I'm always here." Mayor Samples apologized for the informal address. Ms.  
79 Lowery: "That's quite all right. Betty Lowery, 619 4<sup>th</sup> Avenue North. I was in a rush Tuesday night to get  
80 everything in, so a couple of things... I don't have an issue with lakeside decks. You know, if somebody  
81 wants to build a little platform there and they can sit out and just look at the water, I don't have an issue  
82 with that. I do have an issue with some sort of a dock that actually goes into the water, and I think a lot of  
83 it is a mindset. They look so nice, thanks to public work, works, and there're houses right on 'em, and we  
84 call 'em lakes, and I think that mind set has led us to view them that way instead of what their actual  
85 purpose is. If someone puts a 12 by 12 dock, and I'm going to refer to dock as being something you're  
86 gonna put a boat on in the water, if they put that out there, there's no way on God's green earth they're  
87 gonna be able to haul those things in, in a storm. It's just not gonna happen. They can't do it. We just  
88 can't afford to have anything actually out in the water. As far as boats and things are concerned,  
89 hallelujah! (*Speaker's emphasis*) Nothing other than man powered. But, still like with the paddle boats  
90 that can get some good size on it there, and we may want to evaluate that. I don't know if what you have  
91 there limits the length of the boats. You're looking at canoes, kayaks; I don't know that anybody would  
92 want to put a paddle board out there, but nothing with electric or gas motor. If they're gonna put  
93 something in that's fine. Also, there was a gentleman who said if they put a deck there, and he doesn't  
94 have anywhere to put his boat, how's he gonna get his boat in the water. If the lot has a 30-foot front,  
95 the width of the deck can only be 12 feet. That gives him 18 feet, if he wants to try to slide a canoe in from  
96 some other section of (\*\*). Not having a dock or a floating dock is not going to preempt him from putting a  
97 boat in the water. We have that area at the end of Nelson's house; not the one with the fence, but on the  
98 other side. People are always going in there. They're fishing there. You know, they can slide a canoe in.  
99 I don't know, I'm not in favor of putting boats out there at all, except for maybe what Mr. Adair has to use  
100 for servicing, but if it's gonna happen, we really need to be able to put a lid on it. But, please, please  
101 consider rescinding the floating dock aspect of it. That is a can of worms. I mean, that's where all the  
102 changes had to come in. That's where all the flexibility had to be. Lake side deck, pond side deck, a side  
103 deck, you know, no issues there that will interfere with anything. But, putting a dock out that's whole  
104 nother [sic] issue, you know putting something in that water that's gonna float, and float away. (*Time  
105 ended.*)"  
106

107 "Al Lauer, 124 Harbor Lights Drive. I look at it this way, to put anything else into the water makes  
108 no good sense, and I would leave it at that. We know that the water is polluted. We aren't testing it  
109 enough. We don't know that, I guess, for a 100-percent certainty, but I think we all know that that water is  
110 polluted. To keep people away from it, out of that water, is probably in everybody's best interest. I  
111 appreciate how pretty it looks to be on that lake or that retention basin, but it just doesn't make any good

112 sense to put people close to it, in it. Now, sitting on a deck, I think is fine, but otherwise, it just doesn't  
113 make good sense."

114  
115 "Sandra Elliott, 5<sup>th</sup> Avenue North. I am also opposed to all types of decks out there, mainly  
116 because of the pollution, and I'm also opposed to the resolution which is stating what can go into the  
117 water, when we know it's polluted to begin with. So, we're saying okay, go in the water with your canoe,  
118 but we know people are doing it now, but we're giving a blessing. Go ahead, go in there and fish, and if  
119 your arm falls off in a month, that's okay."

120  
121 Mayor Samples said before the business items were taken up he was compelled to mention that  
122 all councilmembers were contacted with the exception of Mr. Stevens, who was on vacation with his  
123 family. Mr. Stevens made Town Council aware earlier in the week that he would not be available,  
124 because of personal commitments. Ms. Dodge and Mr. Smith were contacted yesterday. The meeting  
125 time was established with their input, and only after noon today was he advised that they would be unable  
126 to attend. Mayor Samples expressed appreciation to the members whom attended so that there was, in  
127 fact, a legal quorum, which allowed them to conduct business. Having served 11 years, and having  
128 talked to other members who served long before he began serving, Mayor Samples said Town Council  
129 had never had trouble conducting business, because of members not showing up for meetings. He  
130 reiterated appreciation for those members that attended, and said he did not know how the vote would  
131 turn out, but at least members were present to express their opinions, make their position known, so that  
132 the town could conduct business. Mayor Samples said in his opinion, it was unseemly of elected  
133 members to not to attend meetings when they had already committed to attend.

134  
135 **3. BUSINESS.**

136  
137 Mayor Samples said if there was no objection, he would like to address Item B, Second Reading  
138 of Ordinance #13-0751 to allow docks on Town Lakes before addressing the resolution. There were no  
139 objections.

140  
141 **B. Second Reading of Ordinance #13-0751 to allow docks on Town Lakes.**

142  
143 Ms. Mabry moved to adopt second reading of Ordinance #13-0751 with an amendment to delete  
144 Section 17-417 Docks and Section 17-418 Violations in their entirety, and to substitute the following as  
145 Section 17-417: *All docks are hereby prohibited on the town stormwater retention ponds, also known as*  
146 *"town lakes". Existing docks shall be considered existing non-conforming uses and shall not be allowed*  
147 *to be rebuilt or replaced should the dock be damaged or become unsafe.* Ms. Kohlmann seconded.

148  
149 Mayor Samples said asked how the motion impacted first reading.

150  
151 Ms. Mabry said it would substitute the new language for Section 17-417, docks. The current 17-  
152 417 and Section 17-418 would be omitted.

153  
154 Ms. Morris said this was discussed with the town attorney who said that 17-417 could be  
155 amended as stated by Ms. Mabry and that Section 17-418 would no longer be required, and Town  
156 Council could continue on with second reading. Ms. Mabry's amendment would replace the proposed  
157 wording as adopted at first reading, but it would constitute second reading.

158  
159 Mr. Johnson asked for clarification if the amendment would replace 17-417 and 17-418. Ms.  
160 Morris said that was correct. The amendment language would appear in the final ordinance as 17-417  
161 under docks, and 17-418 violations and remedies would be removed because docks were not allowed at  
162 all.

163  
164 Ms. Kohlmann asked what happened to existing docks if this amendment was adopted; if an  
165 existing dock created a violation would the code not need to include what the violation was. Ms. Morris  
166 said in Chapter 17 includes the exact wording that was proposed for 17-418, so there was a code to  
167 apply. Ms. Kohlmann asked if violations code had to be specific to docks. Ms. Morris said it did not.

168  
169 Mayor Samples said the town had done wonders with the stormwater ponds over the last decade.  
170 The fact of the matter was that the town did not acquire ownership of the larger lakes until the early  
171 2000s. Prior to then, they were privately owned. They weren't maintained, and the town desired to take  
172 possession of the ponds so that they could provide some maintenance. Mayor Samples said they were  
173 called lakes, but those who had been here knew they were nothing more than stormwater retention  
174 ponds. Those who were here recall when the lakes were lower before the county stormwater project was  
175 done and the town agreed to take more stormwater flow on from the county. He was talking specifically  
176 in this instance about Dogwood Lake. The bottom of the pond was not level. There were old coquina pits  
177 that filled up. To begin with they were unsafe for recreational use on that basis. The fact of the matter  
178 was that the town knew there were all types of pollutants in the ponds, because by their very nature they  
179 were stormwater runoff retention ponds. He asked Mr. Adair, who was not working for the town at that  
180 time, but was now responsible for maintaining the lakes to describe the maintenance process and  
181 chemicals used to keep them aesthetically pleasing, but they were not something he would recommend  
182 people use for recreation.

183  
184 Mr. Adair said his job was primarily concerned with maintaining proper water flow in the lakes.  
185 Water quality was a huge part of what the department did, as did any municipality on the coast, subject to  
186 NPDES (National Pollutant Discharge Elimination System) regulations, which was hugely concerned with  
187 water quality. Mr. Adair shared photographs taken in 2008, copies of which are on file, showing the  
188 condition of Dogwood Lake and Lake Elizabeth at that time. According to reports Mr. Adair heard, he  
189 understood that birds could walk across the top of the water on Lake Elizabeth, because there was so  
190 much vegetation and debris in the lake. The photograph of the county side of US Highway 17 showed a  
191 huge amount of litter accumulated in the ditch behind the bowling alley. Since the screen filtration was  
192 installed much of the debris was prevented from coming into Lake Elizabeth. The potential for pollutants  
193 and small particulates and bacteria, however, continue. There was no control over that. Mr. Adair  
194 explained to the planning commission last week that he was very concerned with the human contact  
195 aspect of using the lakes. There have been many anecdotal problems with heavy hits of bacteria coming  
196 out of the swashes. The lakes were treated, and volunteers tested the water weekly. Various chemicals  
197 were used multiple times depending on the severity of the problem throughout the course of the summer.  
198 They use products like Glyphosate, which is a "Round-up" weed killer type product, to control certain  
199 types of aquatic weeds; Diquat dibromide, a regulated restricted herbicide eliminates many of the  
200 submerged weeds, and Copper sulfate was used to treat the algae that grew on the surface creating the  
201 green film on the water. These chemicals help reduce the plant life in the ponds, but also present a  
202 different set of problems. For instance, there was oxygen reduction in the water caused by the dying  
203 plants. Mr. Adair said he personally would not eat fish out of any of the town's lakes, based on that  
204 information. There were all sorts of heavy metals that run off the roads like mercury, and copper. Even  
205 detergents from car washings go into the storm drains. He wanted everyone to be fully aware of the  
206 maintenance and what was used, because the ponds were not "clean spring water."

207  
208 Ms. Morris said that the town attorney also advised that if the amendment to prohibit the docks  
209 was adopted that Town Council be specific as to why the decision was made for the record.

210  
211 Ms. Mabry said number one, as leaders of the town, nothing comes before the health and safety  
212 of the citizens and the general public. There were also liability issues. But all the other issues take  
213 second place. Health and safety was number one. Ms. Herrmann asked if Ms. Mabry wished this to be  
214 'for the record.' Ms. Mabry said yes.

215  
216 Mayor Samples asked Ms. Mabry to start over and begin with 'for the record.'

217  
218 Ms. Mabry said for the record, "As leaders of our community, health and safety is number one.  
219 That's what we're here for, and I have learned since the first vote, we've had a, an opinion from the  
220 Municipal Association. It's not a good idea. It's not safe. Our waters are not safe for body contact, and  
221 that's exactly what we're promoting, if we allow these docks. And as much as I'd like to thank the  
222 planning commission, because I do think they tried to split the baby without doing any harm, basically, it is  
223 harmful. This is a retention pond. There's not enough chemical made that will make this water clean,

224 because every day we're taking water from any part of the county. We don't have control over what  
225 comes into our lakes. It is not spring fed, nor is it river fed. It is stormwater runoff, and it is everything  
226 and anything that you can think. Even the chemicals that we put in it to take care of the algae is not  
227 something that you want to be in contact with. We simply don't want to promote recreational activities  
228 when we know it can be harmful. We call our retention ponds town lakes. We try to beautify them. We  
229 try to make them look as nice as they can. We're a family beach; we want everything to look good. It's  
230 still a stormwater retention pond. No matter how pretty you make it look. I just think that the bacteria, we  
231 have over 1,100 acres in Horry County, it carries pollutants, contaminates, not limited to e-coli bacteria,  
232 lead, arsenic, mercury, pesticides, chemicals, zinc, and herbicides. So nobody here, in my opinion, would  
233 want body contact with that. So that is why I'm saying no to the docks. It's a health and safety issue."  
234

235 Ms. Kohlmann asked if that was what was needed, or if the ordinance needed to specifically state  
236 for the health and safety. Ms. Morris said the statement just needed to be on record. Ms. Kohlmann just  
237 wanted to make sure that it was adopted with the right wording.  
238

239 Mayor Samples called for the vote saying that if the motion was adopted, the amended language  
240 would be adopted and would be an approved ordinance for the Town of Surfside Beach. Mayor Samples  
241 asked Ms. Mabry to restate her motion.  
242

243 Ms. Mabry restated the motion to adopt second reading of Ordinance #13-0751 with an  
244 amendment to delete Section 17-417 Docks and Section 17-418 Violations in their entirety, and to  
245 substitute the following as Section 17-417: *All docks are hereby prohibited on the town stormwater*  
246 *retention ponds, also known as "town lakes". Existing docks shall be considered existing non-conforming*  
247 *uses and shall not be allowed to be rebuilt or replaced should the dock be damaged or become unsafe.*  
248 Ms. Kohlmann seconded. All voted in favor. **MOTION CARRIED AS AMENDED.** (Applause)  
249

250 **A. Resolution #13-138 to allow canoes, paddle boats, and manpowered boats on town on**  
251 **town lakes and to prohibit all motorized water vehicles and any other type of boat on Town Lakes.**  
252

253 Ms. Mabry moved to suspend the rules to allow discussion. Mr. Johnson seconded. All voted in  
254 favor. **MOTION CARRIED.**  
255

256 Mayor Samples asked if the town attorney had reviewed the resolution as written. Ms. Morris  
257 said yes, he had. Mayor Samples said for the record, "the resolution itself could be construed to invite  
258 usage on the lakes." Ms. Morris said that was true, it could be construed as such, but if you did not have  
259 anything in place, then you would be allowing whatever they put on the lakes in the lakes. First, they  
260 were not inviting kayaks, canoes, and paddle boats, but they were already being used on the lakes. It  
261 was recommended that signage be placed around the lakes that state use of the lakes is at the user's  
262 own risk, but staff did not recommend it. Mayor Samples asked if Ms. Morris was recommending that  
263 warning signs be posted. Ms. Morris said no, she did not.  
264

265 Ms. Kohlmann agreed with Mayor Samples. At the planning commission meeting someone  
266 mentioned that you could not control what people do, and that was very true. Unless the town wanted to  
267 fence the lakes, they would not be able to keep people out of them, because there was public access to  
268 them. Some people, and even she, believed that the town would have to build a public ramp; but, there  
269 was public access already on Cedar Drive North and on Dogwood Drive. She knew people who canoe in  
270 the lake. You cannot stop what people do that way. There were a lot of ordinances, as she had said  
271 before, and the Mayor always said it, do not create ordinances that cannot be enforced. Ms. Kohlmann  
272 said they did not want to be so (\*\*\*) that it could not be controlled. She believed the lakes were retention  
273 ponds. She was big on stormwater, so she agreed. If some rule was not in place, the next thing they  
274 would see would be jet skis. Sooner or later it would happen. The public would argue if no rules were in  
275 place that they could not be told no. She believed the council should consider the issue and do what was  
276 best for the town.  
277

278 Ms. Morris said if Town Council chose to approve the resolution today, staff would present an  
279 ordinance for consideration at the next regular council meeting.

280  
281

Mr. Johnson agreed.

Mayor Samples said some definition should be made with respect to the word "small." Ms. Morris said the wording was adjusted slightly; copies were distributed that showed a recommendation at the very end that "Now, therefore, be it resolved that the Town of Surfside Beach Council does hereby resolve to limit the use of watercraft to a 4-person canoe, a 2-person kayak, and no more than 2-person small paddle boat to the daytime hours only." Ms. Morris believed that would certainly limit the size. Mayor Samples asked if that would be included in the ordinance. Ms. Morris said yes. Mayor Samples asked when the ordinance would be presented. Ms. Morris said at the next council meeting.

Mr. Johnson moved to adopt Resolution #13-138. Ms. Mabry seconded.

Ms. Kohlmann asked if the ordinance would be presented at the next council meeting. Mayor Samples said yes. Ms. Kohlmann asked if someone had a 4-person paddle boat in the water, if they could continue to keep it there. Ms. Morris said according to the resolution they would only be allowed in the water during daylight hours, so it could not be left overnight. Ms. Kohlmann asked if this would be represented like a regular ordinance and word or two could be changed. Ms. Morris said absolutely and just for the record, "this will not be a planning and zoning ordinance. That's why it will not go to planning commission. This is actually a public works ordinance, so she wanted to clarify why it would not go to the planning commission for their recommendation."

All voted in favor. **MOTION CARRIED.**

**4. ADJOURNMENT.**

Mr. Johnson moved to adjourn the meeting at 3:39 p.m. Ms. Kohlmann seconded. All voted in favor. **MOTION CARRIED.**

Prepared and submitted by,

\_\_\_\_\_  
Debra E. Herrmann, CMC, Town Clerk

Approved: August 13, 2013

\_\_\_\_\_  
Douglas F. Samples, Mayor

\_\_\_\_\_  
Mary M. Mabry, Mayor Pro Tempore

\_\_\_\_\_  
Ann Dodge, Town Council

\_\_\_\_\_  
Mark L Johnson, Town Council

\_\_\_\_\_  
Elizabeth A. Kohlmann, Town Council

\_\_\_\_\_  
Roderick E. Smith, Town Council

\_\_\_\_\_  
Randle M. Stevens, Town Council

Clerk's Note: This document constitutes minutes of the meeting, which was audio taped. Appointments to hear the audio tapes may be made with the town clerk. In accordance with FOIA, meeting notice and the agenda were distributed to local media and interested parties. The agenda was posted on bulletin boards outside Council Chambers; in the Town Hall reception area, and on the town website. Meeting notice was also posted on the Town marquee. When (\*\*) is used, a section of the transcription is inaudible. Public Comments are verbatim.

**1. CALL TO ORDER.**

Mayor Samples called the meeting to order at 6:30 p.m. Mayor Samples, Mayor Pro Tempore Mabry, and Councilmembers Dodge, Johnson, Kohlmann, Smith, and Stevens were in attendance. A quorum was present. Others present: Town Administrator Fellner; Finance Director King; Public Works Director Adair, and Town Clerk Herrmann.

**2. INVOCATION AND PLEDGE OF ALLEGIANCE.**

Pastor Kay Standaland from the South Strand Assembly of God gave the invocation. Mayor Samples lead the Pledge.

**3. AGENDA APPROVAL.**

Mr. Smith moved to approve the agenda. Mr. Stevens seconded. All voted in favor. **MOTION CARRIED.**

**4. MINUTES APPROVAL.**

Ms. Dodge moved to approve the minutes of the July 9, 2013 meeting as submitted. Mr. Smith seconded. All voted in favor. **MOTION CARRIED.**

**5. PUBLIC COMMENTS – Agenda Items (3 minutes.)**

“Betty Lowery, 619 4<sup>th</sup> Avenue North. I’m gonna be quick, because I’ve got two antsy little girls that want to go home, and they just got here. I’m concerned about the idea of watercraft on the retention ponds. At the last council meeting we heard about FEMA refusing to pay for any damage that was the result of anything that we put on the lakes. Somebody’s kayak; somebody’s canoe; somebody’s pedal boat, it won’t make any difference. If it messes up the weirs; we have flooding, FEMA has already said they will not pay. Secondly, putting any kind of water craft on those retention ponds again creates the illusion this is a recreational area, and it is not. It is not. It is a glorified drainage ditch, and it doesn’t matter what we call ‘em; what name we give ‘em, that’s what they are. I keep thinking about the dirty diaper I found in the Piggly Wiggly parking lot next to my car knowing that the water that runs across that parking lot and through that diaper and into the road and everything else winds up in that pond. We don’t need to have anything in that pond that’s going to encourage anyone to contact the water, and I realize there are some people who have been doing it for a long time and they’re going to say well, I’ve been doing it since I was a kid. Well, Surfside now is not Surfside when they were a kid. (\*\*) It has changed. It is developed. We have a lot going in Surfside now we didn’t have all that time ago. Thirdly, the idea of a 20-foot minimum, that’s three times my height. We (\*\*) for a two person water craft you don’t need 20 feet, and I realize that’s a maximum, but it’s just not necessary. I, I think Surfside will be opening a can of worms; if we put any kind of water craft whatsoever in that lake. I would like to see you amend that motion [sic] to say water craft of any kind is prohibited with the exception of what is needed by the town to maintain the lakes. Thank you.”

“Good evening. Ron Ott, 7<sup>th</sup> Avenue North. I read the, on the Internet, about the recommendation we could put on 20-foot sailboats. That ain’t gonna make it. You know they have a keel and the keel has to be a certain size or actually weight to the mast head, and I don’t see the avenues that you can actually steer safely a sail boat. Once that keel gets caught, you, you, you lose that lever

57 movement. The boat's gonna turn into the wind and it's gonna flop in the water. I don't know if John  
58 Adair's ready to start pulling these sailboats out of the water. I don't have any trouble with the canoes  
59 and paddle boats and stuff like that, but I think you're, you're gonna have a problem with the sailboats.  
60 They just, can I say it, they're, it's really redneck, you know, 20 foot sailboats in Lake Elizabeth don't, they  
61 just don't make it. The 6<sup>th</sup> Avenue South pond, we look at what it would (\*\*). I guess we have some kind  
62 of, and that's the amount of what's it's gonna cost to connect all these pipes and fill it in. The connecting  
63 of what, three pipes coming in, and two pipes going out making this connection versus what it would cost  
64 if we put another little pump in there and, because it did look really nice for a long time a couple of years  
65 [sic.] The pump went down and so did the lake. The lake's not, it's not a lake, it's just a little retention  
66 pond. That's all it is. (\*\*) It was a nice little water treat there for the people. Did we ask the people in the  
67 area how they felt. Maybe some want it and maybe some of them don't. The stormwater millage, we're  
68 gonna discuss that. I hope we find that missing \$1 million. Where is stormwater? Yeah, I'd like to see  
69 that, if anybody wants to know about that, it's in the minutes. Thank you very much.”  
70

71 “Alan Beck, (\*\*) 10<sup>th</sup> Avenue North. I sent you all an email with my concerns on this proposed  
72 motion and the special meeting, and I urge that you reconsider those, because I believe they were based  
73 on faulty data. I read in the newspaper about how polluted our ponds were. I've heard people talk about  
74 that tonight. I'm one of the Surfside water testers. The rate for the last three years on Dogwood Lake, I  
75 don't know about other ponds may be polluted and have a problem; we have a clean lake. Dogwood  
76 Lake's data from the data base, which I drew out for the last three years, says the median e-coli has been  
77 33.0. We test every two weeks. The limit for full body immersion, I'm quoting the EPA max, is 575.  
78 Thirty-three pollution compared to 575 EPA maximum limit for being in over your head totally is just way  
79 off the chart! (*Speaker's emphasis*) If you look at nitrates, nitrites, or ammonia, the other three things we  
80 test for the last three years, (\*\*) June, (\*\*) July, three years back, zero! Every two weeks zero! We  
81 haven't had it in Dogwood Lake. Those lakes five or six years ago had ponds [sic], problems, but they're  
82 clearing up. I think you got the wrong data from citizens that just come up and assume that things are,  
83 are dirty in the lake, because they saw a dirty diaper across the street, and you need to understand the  
84 data that comes from actual sampling in our lake shows it's clean. I went sailing this afternoon all the way  
85 around the lake; enjoyed it tremendously. I do [sic] my little boat. I know where the sandbars are. I get  
86 through fine. If I ground out in the middle of the lake, I know it's less than knee deep. You can stand (\*\*)   
87 and the water would be down there (*indicating his knee area*); a long way from total body immersion and  
88 perfectly safe for most everywhere in Dogwood Lake. You can stand up fine. You need to reconsider  
89 both the emergency meeting resolution and this proposed implementation tonight, because it was based  
90 on erroneous data. It was based on fear. People were worried about a lot of boats careening around.  
91 Well, you've outlawed jet skis, as they said, or something (\*\*) motor boats. But, it's not gonna happen.  
92 Nobody's gonna put a big sailboat with a keel in there. My sailboat is 7 foot plus, now, and my board  
93 goes down about 5 or 6 inches. So, you know, it works fine for me and my grandson. You may want to  
94 put three people in a canoe. I haven't put my grandson in yet, because my canoe's tippy, and my little  
95 sailboat is perfectly stable. It's 4 feet wide, 7 feet long, and it's very stable, and works fine. The water is  
96 clean. What's the problem? The problem, I think, is that a lot of the people that's tried to convince you  
97 not to do this don't want one of their neighbors to have a dock or a boat and they want to be sure that we  
98 penalize them enough that they'd get rid of them and be afraid of 'em. This thing about the boat in the  
99 water overnight being 30 days in jail, when I went around today I saw three of four boats that were in the  
100 water in our neighbor's yard tied up to their docks or whatever. I've been gone three weeks. I came back  
101 to town and I found this out on line that rounded bottom boats weren't gonna be conformed anymore,  
102 sailboats weren't gonna be allowed (*time ended*) and it was 30 days in jail. So I would have 400 days in  
103 jail as of today. In fact, if Tom O'Dare had borrowed my boat, left it tied up in front of the lake... Mayor  
104 Samples interrupted saying thank you. Mr. Beck: “My time is up.” Mayor Samples said yes, sir. Mr.  
105 Beck: “Thank you.”  
106

107 “Lonnie Hopkins, 712 Cedar Drive North. Mr. Mayor and Council, got a couple of things. Number  
108 one, bring back a little incident that happened a few years ago. There's no if, and, or butts about it;  
109 happened cause I saw it, and my wife saw it; talking about canoes. There is a canoe that came from the  
110 upper end of the lake, one windy cold day, in the winter time. And in that canoe was two small boys.  
111 Looked like they were nine, ten years old, no life vest on, no nothing. We wondered how; what in the  
112 world they were doing in that boat. No grownups around or anything. So we stayed and watched out my

113 kitchen window. Well all at once, the wind was so high they decided to try and get this canoe turned  
114 around; only had one ore. They tried to turn it around. They couldn't do it. First thing, he lost the ore,  
115 start floating down cause the winds blowing it toward the water weir. The little boy jumps out of the boat,  
116 goes down swimming like heck. He gets the ore. He came back and he tried to get in the, the, the  
117 canoe. He turned the canoe over and there they were. After trying to hold on and everything, very, very  
118 cold. So I ran out, and Anita called the rescue squad here in Surfside to get them down so we could get  
119 them out. I had a crawdad boat in my back yard. I ran out to get that, well, realized my ores were in the  
120 garage. So I looked up the lake about 200 yards and there was a small fishing boat up there. And so I  
121 called him and waved at him, boys in trouble and everything. So he came down about that time the  
122 Surfside Rescue got there. And those two boys got out, but they could of drowned. That canoe when it  
123 turned over, you know it can happen. So, we have no controls on how we control who's in those, in those  
124 boats and everything. So that's one of my points. The other point I want to remind you again, that we  
125 have the data from the county. We got it this week, about what was stated here today and it was 70:30  
126 contract. The 70:30 contract that you have is for capital expenditures on these lakes. The other portion is  
127 100-percent that you have, the town has to take care of anything that happens on those lakes. So it's not  
128 a 70:30, it's 130. And I've got documentation at my house that states that from the county. And I'm sure  
129 you've got it too, and everything; so, just a couple of small points there and everything. And the other  
130 thing, that small island on Lake Elizabeth, there's youngsters that come in there. Look like they are  
131 fifteen, sixteen years old and they go in there and they camp out. They got their small little boats and  
132 they go in there and they're in there sometimes four or five hours. They shouldn't be in there. You can't  
133 see them or nothing, you know. So, there should be a sign stating they aren't allowed to loaf and park on  
134 this small island. Thank you very much."  
135

136 "Judy Allen, and I live at 616 10<sup>th</sup> Avenue North on the lake. I don't understand quite what this  
137 gentleman was talking about. We see 'em out there on that lake every day, and most of the kids, they  
138 have on life preservers. If, if something is wrong with that then put up [signs] saying life preservers are  
139 required on the lake. Don't stop the kids from playing. Don't stop the fishermen from fishing. You know,  
140 a little electric motor's not gonna hurt that lake. I just don't quite understand where all this is coming from.  
141 That's all I have to say."  
142

## 143 **6. COMMUNICATIONS.**

### 144 **A. Department Reports.**

#### 145 **i. Finance**

146  
147  
148  
149 Ms. King presented the written report, a copy of which is on file. Ms. King explained that the final  
150 June 2013 financial results could not be compiled, because revenue collected in July was actually for the  
151 month of June. Year-to-date, the general fund brought in \$5,593,463, which was \$228,000 less than  
152 budgeted. Franchise fees from Santee Cooper and Time Warner had not yet been received. Revenue  
153 from business licenses renewed during July would also be credited to June. It was possible that the  
154 revenue projection for the year would be met. Expenditures totaled \$5.5 million on a budget of \$5.9  
155 million. At this time, the general fund was \$88,000 to the good, but there were still revenue and  
156 expenditures to be booked. Also, capital item expenditures and money for the road had to be booked.  
157 The accommodations fund had a net of \$10,000 for the year. Local accommodations taxes were all  
158 transferred to the general fund. Hospitality had a loss of \$566,000. The pier brought in \$663,000 year-to-  
159 date; expenses were \$82,000, plus the loan payment. So, the pier was not flush with cash, even though  
160 it appeared that way on paper. The sanitation fund had done well bringing in \$1.175 million so far this  
161 year; expenditures were \$1 million, so it has a net of \$160,000. Sanitation equipment and the pier fund  
162 needed to have depreciation booked to get the year-end totals. The Lanier Parking status showed year-  
163 to-date revenue receipts of \$93,600 with expenses of \$57,655. Ms. King had estimated that this month  
164 that Lanier would have expenses of \$14,000; it was actually \$13,900. Year-to-date the town netted  
165 \$35,962 from parking meters. Lanier's budget in the proposal indicated that the town would make about  
166 \$36,000, so the receipts were about \$6,000 under Lanier's projection.  
167

168 Ms. Dodge asked Ms. King how much had been paid to Lanier. Ms. King said approximately  
169 \$57,655; the town also bought equipment, which was not included in that total.  
170

171 Mayor Samples asked whether that amount included Lanier's fee. Ms. King said yes. Mayor  
172 Samples asked if the fee was being paid monthly. Ms. King said yes. The only number not included was  
173 the merchant fees that were not yet booked.  
174

175 Ms. Kohlmann referred to the general fund operating expenditures and asked for explanations for  
176 the following variances:  
177

	June 2013	June 2012	Increase
178 Fire Department	\$13,110	\$ 6,170	\$ 6,940
181 Grounds	\$12,212	\$ 5,836	\$ 6,376
184 Public Works	\$34,727	\$18,919	\$15,808
185 Hospitality/Grounds	\$ 9,425	\$ 2,811	\$ 6,614

186 Ms. King believed the fire department increase was for uniforms, but was not certain. She would  
187 check all the departments and advise Town Council.  
188

#### 189 ii. Recreation

190  
191 Ms. Fellner presented the written report, a copy of which is on file, because Ms. Ellis was absent  
192 due to illness. The July 4<sup>th</sup> celebration was held in the pier parking lot. Entertainment was provided by  
193 Steve Fairchild and the show was fantastic. The fireworks display lasted 25 minutes and was the best so  
194 far. Attendance was believed to be the largest ever. The police, fire, and public works departments  
195 assisted with the event. The Kid's Fair was held Monday, July 15<sup>th</sup> at Fuller Park from 4:00 p.m. until 7:00  
196 p.m. There were 16 kid-friendly vendors participating. Entertainment was provided Dee Jay Benton.  
197 New York Life attended and provided free IDs for the children, which included a photo and fingerprint kits.  
198 The event was a great success and attended by more people than ever before. The Youth Association  
199 finished its youth athletic programs for the year and was preparing a final report that would include a  
200 financial report, successes, and problems. Upcoming events included the Beach Luau; Guy Daniels  
201 Memorial Surf-off, August 17<sup>th</sup> and 18<sup>th</sup>; Movies After Dark, August 25<sup>th</sup> at 9:00 p.m. in Martin Park. The  
202 featured movie is Parental Guidance; Sunday Serenades continue, and has an ever expanding audience;  
203 and Farmers Market every Tuesday, which continues to be a huge success.  
204  
205  
206

207 Ms. Dodge said the Sunday Serenades were excellent. There were some very good artists  
208 performing. She enjoyed it very much and it was a good, relaxing way to spend a Sunday afternoon.  
209

210 Mr. Johnson asked when the Beach Luau was scheduled. Ms. Fellner said August 12<sup>th</sup> beginning  
211 at 6:00 p.m. at the pier. A flyer was created today that would be published on the website.  
212

213 Ms. Kohlmann asked if the insurance certificate was received for the Guy Daniels Surf-off. Ms.  
214 Fellner said no, but a reminder was in the executive assistant's and her outlook files. If the certificate was  
215 not presented, the event would be cancelled. Mr. Daniels knows a certificate is required as both she and  
216 Ms. Messall had spoken with him about it.  
217

218 Mr. Johnson publicly thanked everyone involved with the July 4<sup>th</sup> celebration. The traffic flow was  
219 phenomenal this year, as opposed to years past. There were no major explosions on the pier; it was all  
220 good.  
221  
222  
223

224 **iii. Public Works.**  
225

226 Mr. Adair presented the written report, a copy of which is on file. Sanitation residential service  
227 delivered four carts to new residences; seven carts were delivered upon owner request, and 22 carts  
228 were delivered to handle overflow. Commercial service had four accounts that increased service days;  
229 15 accounts required extra pick-ups due to overflow. Schedules were explained to four new business  
230 accounts: Marketing Provisions, Car Rental Associates, Insurance Co. Records, and Lazer's Pizza.  
231 Surfside Pizza was notified that its dumpster needed to be replaced, because it was leaking. The  
232 supervisor confirmed that a new dumpster was on site. Twelve recycling carts were delivered to residents  
233 upon their requests. There were 3.18 tons of recycling materials collected off the beach during May and  
234 June. During June, 506 tons of solid waste were collected; 44 tons of mixed debris; 123 tons of yard  
235 debris, and almost 45 tons of recyclables, which was consistent with last year's totals. Crews continued  
236 to rake the beach, and dig out the swashes almost daily to insure proper water flow. Beach cans were  
237 serviced three times during the week and also on weekends. This week they were serviced four times,  
238 because of overflow. Between March and June crews removed 48 bags of litter weighing about 720  
239 pounds from Highway 17 under the Adopt-a-Highway program. Crews continued to trim trees and  
240 remove overhanging branches from throughout the town, which accommodates equipment and trucks,  
241 especially the fire trucks that travel through town. Trimming and maintenance continued on town rights-  
242 of-way. Mosquito spraying was performed town-wide Tuesday and Friday mornings, weather permitting.  
243 Five new reports were sent to Santee Cooper identifying street lights not functioning properly. Repairs  
244 were made to the fountain at the 9<sup>th</sup> Avenue South pond. Replacement light bulbs were ordered for the  
245 Dogwood Lake fountain. Maintenance and irrigation repairs were made at the Veterans Memorial.  
246 Crews continue to spray town lakes as weather permitted. Lakeside residents were notified by flyers the  
247 day before treatment. Mechanics completed 71 repairs on town vehicles and equipment, and 37  
248 preventive maintenance checks and services were done. A new tile floor and toilette were installed at the  
249 police department. Several vandalism repairs were made to the pier and 5<sup>th</sup> Avenue South bathrooms.  
250 Stenciled FDC (Fire Department Connection) notifications were painted at five different locations on  
251 Ocean Boulevard at the request of the fire department. A volleyball court was installed on the beach at  
252 1<sup>st</sup> Avenue South. Carpet installation at town hall was completed. As reported at the last meeting, a flag  
253 pole was installed at Martin Field prior to July 4<sup>th</sup>. Several repairs were made to the pier lighting and sinks  
254 due to minor vandalism.  
255

256 Ms. Kohlmann asked if Mr. Adair knew specifics about the vandalism in his report. The pier was  
257 locked at night, and she asked if the events occurred during the day. Mr. Adair said the incidents were  
258 occurring at night. People hop over the fence to gain access. It was minor damage; a light bulb broken,  
259 a drain from the sink was kicked out. The sink repair involved replacing a PVC (polyvinyl chloride) pipe,  
260 which was a \$3 repair, but it was necessary. Graffiti was always reported to the police department, but  
261 minor things like those incidents were just repaired. Ms. Kohlmann asked in Mr. Adair's opinion whether  
262 there were many incidents at the pier. Mr. Adair said no, there were very few. Throughout the summer  
263 there would be several graffiti incidents at the beach or incidences of someone trying to start a fire.  
264 Sometimes people break light bulbs on the beach walkovers, because they want it to be dark. The  
265 incidents are frequent, but usually are just small things.  
266

267 Ms. Kohlmann said the town recycling program was great, and asked if the business committee  
268 could reach out to the business community to encourage them to participate. Most of the town's  
269 businesses have a lot of refuse that could be recycled, especially bars and restaurants. She was  
270 surprised to find many businesses did not recycle. She thought it would behoove the town to encourage  
271 the business community to participate in recycling, because the town received an incentive for recycling.  
272 The homeowners and even some beach goers participated in recycling. Only a few of the condominiums  
273 had recycling bins. Mr. Adair said recycling was offered to every business and they were encouraged to  
274 participate. He personally visited many bars, restaurants, and businesses that created a lot of paper  
275 waste to ask if they would like to participate. Flyers were given also distributed, but he would appreciate  
276 a partnership with the business committee. He thought that was a great idea, because it might help  
277 increase participation. About 400 magnets were given to rental companies to be placed in the rental units  
278 to encourage recycling. Mr. Adair said recycling was mandatory at his previous home. He knew that at  
279 least 30- to 40-percent of waste could be recycled without much effort at all. He thought the business

280 committee might be a good resource, because the sanitation supervisor and he were really the only ones  
281 that went door-to-door to explain the program. If the business was not interested, there was nothing they  
282 could do but walk away. Ms. Kohlmann said she would hate to see another ordinance mandating  
283 something that people should use common sense about. She asked what should be done.

284  
285 Mayor Samples suggested that Mr. Adair make a presentation at the next business committee  
286 meeting.

287  
288 Mr. Stevens, who was the council advisor to the business committee, said he liked Ms.  
289 Kohlmann's idea and he would personally visit each business committee member to speak with them.

290  
291 Ms. Kohlmann thought it would be better to do a presentation to the committee as a whole,  
292 instead of individually meeting with members.

293  
294 Mr. Stevens said Mr. Adair could attend and make a presentation, but he would also speak with  
295 them.

296  
297 Ms. Dodge asked Mr. Adair whether the town picked up televisions and electronics. Mr. Adair  
298 said those items were banned from the landfill. The house-to-house trash truck would not pick them up.  
299 Drop-offs were scheduled twice a year so residents could bring televisions and electronics to be disposed  
300 of properly. However, if a television was sitting in front of a house for a number of weeks, staff would pick  
301 it up and store it at public works until the next drop-off event, because it would be vandalized on the side  
302 of the road. Ms. Dodge said thank you, and that explained it. She thought that was the case, but was  
303 unsure.

304  
305 Mayor Samples said the General Assembly or the Feds had determined that e-waste, electronic  
306 waste, was not to be placed in the regular landfills and had to be specially treated, which cost more  
307 money to dispose. He was glad that Mr. Adair had taken the initiative to insure the town looked good.  
308 Mayor Samples asked who reported and/or cleaned graffiti, for instance on the utility boxes. Mr. Adair  
309 said any graffiti reported to the department or that staff saw on public property was removed or the  
310 appropriate company contacted when the graffiti was on private property. Mayor Samples asked Mr.  
311 Adair to check 5<sup>th</sup> Avenue.

312  
313 Mr. Adair also said a grant of up to \$4,000 was just approved through DHEC (Department of  
314 Health and Environmental Control) that offsets the cost of e-waste disposal. Because the town is small,  
315 just about all of the expense to dispose of e-waste for the coming year should be covered.

316  
317 **C. Administrator's Report – Update on Current Events.**

318  
319 **i. Update on Current Events.**

320  
321 Ms. Fellner announced that there would be a hurricane preparedness meeting that was open to  
322 the public on Thursday, August 1<sup>st</sup>, at 7:30 p.m. at the Surfside Beach Fire Department. She announced  
323 that building official Kevin Otte passed the certified stormwater plan review exam. Since Director Morris  
324 was a certified stormwater inspector that meant that the planning, building and zoning department could  
325 now review and inspect stormwater plans and projects in-house. The budget included a line item of about  
326 \$25,000 to outsource those functions, so that would be a nice savings for the town. A presentation was  
327 made to the South Carolina Department of Transportation board of commissioners last week who agreed  
328 unanimously to return the unused portion of the money paid to match the Highway 17 paving. An audit  
329 was currently being done for the used portion. The best date estimate to receive the refund was 60-plus  
330 days. However, she asked Commissioner Wooten to speak with the planning department, since it was  
331 such a relatively low amount, about \$20,000, to see if that could be done more quickly.

332  
333 Ms. Dodge asked if Mr. Otte was attending fire marshals school. Ms. Fellner said yes; he was a  
334 volunteer fireman with the town, and the building official and the fire marshal work closely together  
335 performing inspections, because they have different responsibilities in regards to those inspections.

336  
337 **ii. Consensus Item-Procedures for committees/committee members to solicit donations to**  
338 **fund specific Town Council approved projects not funded in the budget.**  
339

340 Ms. Fellner presented proposed procedures for committees and/or committee members to solicit  
341 donations to fund specific Town Council approved projects that were not funded in the budget, a copy of  
342 which is in file. She explained that because council had formed a number of committees, the question of  
343 solicitation kept coming up and there were certain things that should not be done. That was why a  
344 procedure was important. The Town Code of Ordinances, specifically Sections 4-2; 4-25; 4-26; 4-27; 4-  
345 28, and 4-29 cite what may or may not be done insofar as solicitation. She suggested that either a  
346 resolution or ordinance be adopted by Town Council to establish the guidelines, and that each committee  
347 member receive a copy of the guidelines when adopted and the code. Ms. Fellner outlined her  
348 recommendation as follows:  
349

- 350 i. Procedures for committees/committee members to solicit donations to fund specific Town Council  
351 approved projects not funded in the budget.
- 352 a. I would suggest that our ordinance be followed and below is a copy of the all the statutes  
353 that would apply.
  - 354 b. I would suggest that all committees and groups be given a copy of these statutes.
  - 355 c. The proper procedure would be to present the solicitation plans to the Administrator.
    - 356 i. The Administrator will have authority to agree or disagree when non-profit  
357 501(C)(3) organizations or other charitable groups making the request when it  
358 will not interfere with the smooth operation of the town (e.g., Girl Scout cookie  
359 booth, high school car wash, etc.).
    - 360 ii. The Administrator will bring before council all requests for solicitations that will be  
361 made in the town's name or for the benefit of the town. In such cases all monies  
362 shall follow the towns prescribed order for donations, gifts, and the general  
363 handling of town funds. Donations are tax deductible only when the entity  
364 soliciting those funds is a 501(C)(3). It shall be communicated to all donors, prior  
365 to the acceptance of a donation whether or not the donation is tax deductible.  
366 Handling of all funds shall be as follows:
      - 367 1. A numbered receipt book will be provided by the town and all donations  
368 shall be receipted with a copy to both the donor and the town.
      - 369 2. A check shall be the preferable method of payment.
      - 370 3. All funds shall be turned into the Finance Department by the next  
371 business day.
      - 372 4. Finance shall keep an accounting of these funds.
      - 373 5. Expenditures, preapproved by council, must be accompanied by  
374 receipt(s) and/or invoice(s) and shall be presented to the administrator  
375 who will request that a check be processed within the appropriate  
376 timeframe.

377 Ms. Fellner asked for council comments and direction as to whether to bring it back in the form of  
378 an ordinance or resolution.  
379

380 Mr. Smith asked if any of the current codes authorized the administrator to develop a procedure  
381 like this, because he thought the ordinance should state that the administrator could develop a procedure  
382 to legally authorize the administrator to establish it, and then the resolution would be authorized pursuant  
383 to the ordinance. Ms. Fellner said okay.  
384

385 Mayor Samples said for background that as the town entered its 50<sup>th</sup> Anniversary year, they  
386 wanted to be able to legitimately raise funds from private donors. Various committees had also discussed  
387 soliciting funds for special events. He said the goal was to make sure that the proper accounting was in  
388 place for any solicited funds.

389  
390 Mayor Samples asked if all members agreed with Mr. Smith's proposal. **COUNCIL**  
391 **CONCURRED.**

392  
393 **7. BUSINESS.**

394  
395 **A. First Readings of Ordinances**

396  
397 **i. 13-0754 to amend §2-20(b) Travel Per Diem, Mayor Pro Tempore Mabry and**  
398 **Councilmember Stevens.**

399  
400 Mr. Johnson moved to adopt first reading and to amend Ordinance #13-0754 to use the language  
401 presented in the first reading and changing the paragraph in Section 2-20(b) that begins "Travel days per  
402 diem" to add "Councilmembers shall not be required to return unspent travel days per diem, but may do  
403 so at their discretion," and the next sentence that currently reads "The Town shall follow Federal IRS  
404 regulations..." should be amended to state "The Town shall follow Federal and State regulations on when  
405 unspent travel days per diem is taxable income." Ms. Mabry seconded.

406  
407 Ms. Kohlmann asked if a motion to suspend rules for discussion was in order.

408  
409 Mr. Smith moved to suspend the rules to allow discussion. [No second was offered.]

410  
411 Mayor Samples said a motion was on the floor; the motion would need to be withdrawn to  
412 entertain a motion to suspend rules. Town Council was in discussion for the primary motion; it was not  
413 necessary to suspend the rules.

414  
415 Ms. Kohlmann was not opposed to either method of handling the per diem, but she did like the  
416 wording in the original ordinance and would rather see Ms. Mabry's proposed one line "Receipts for per  
417 diem expenditures and all unused per diem money shall be turned in to the town clerk within 30-days of  
418 the last travel date." She explained that if \$80 was received and only \$50 was spent, the remaining \$30  
419 would be returned along with the receipts. Ms. Kohlmann explained that she said that because she  
420 noticed in the original ordinance that there was language that pertained to accidents while traveling, and  
421 some other verbiage that she believed was important to keep.

422  
423 Mr. Smith said the ordinance presented deletes paragraph (b) and its subsequent paragraphs  
424 and had a new set of verbiage for paragraph (b). The changes that Mr. Johnson proposed referred to the  
425 original ordinance. Mr. Smith said there was a lot of confusion; was the discussion about the proposed  
426 language or the existing ordinance, which according to the draft had been scratched out.

427  
428 Mr. Johnson apologized and said his intention was to amend the existing ordinance.

429  
430 Mayor Samples said the existing ordinance was presented to council with the exception of the red  
431 printed statements.

432  
433 Mr. Smith said that was before them.

434  
435 Mayor Samples understood what Mr. Smith was saying, but also understood Mr. Johnson's  
436 intent.

437  
438 Ms. Kohlmann commented that the existing ordinance had a paragraph that she favored striking  
439 and replacing with the one sentence she mentioned.

440

441 Mayor Samples believed that based on the comments, it was unlikely that Mr. Johnson's motion  
442 would pass.

443  
444 Mr. Smith said it had a good chance of passing, if it was stated properly.

445  
446 Mr. Johnson said for clarification...

447  
448 Mr. Smith continued saying that Mr. Johnson should say that everything that was struck out and  
449 was presented needed to be reinstated, and then the new verbiage stricken.

450  
451 Mayor Samples called for recess at 7:23 p.m. and reconvened the meet at 7:26 p.m.

452  
453 Mr. Johnson withdrew his motion. Ms. Mabry withdrew the second.

454  
455 Mayor Samples said if there were no objections, the item would be deferred to the next meeting.  
456 **THERE WERE NO OBJECTIONS.**

457  
458 **ii. 13-0755 to amend §2-23 Registration of dogs to exempt service dogs from registration**  
459 **fees, Administrator Fellner.**

460  
461 Ms. Fellner presented the ordinance explaining that at the July 9, 2013 regular Town Council  
462 meeting, Town Council unanimously approved an amendment to the Town Code of Ordinances to  
463 exempt service dogs from registration from fees. Therefore, the proposed ordinance was drafted and is  
464 presented for Town Council's consideration to implement the exemption.

465  
466 Mr. Stevens moved to adopt first reading of Ordinance #13-0755. Mr. Johnson seconded.

467  
468 Mr. Smith believed that the ordinance was clear, but wanted to make sure that service dogs had  
469 to be registered, but were just exempt from paying the fee. Ms. Fellner said yes.

470  
471 All voted in favor. **MOTION CARRIED.**

472  
473 **iii. 13-0756 to add Chapter 12, Article 5, Stormwater Retention Ponds, allowable boats on**  
474 **town stormwater retention ponds, Administrator Fellner.**

475  
476 Ms. Fellner presented the consideration paper saying Town Council adopted Resolution #13-138  
477 at the July 12<sup>th</sup> special Town Council meeting, to allow small paddle boats on the town stormwater  
478 retention ponds, commonly referred to as "town lakes." The Resolution directed staff to present an  
479 ordinance to codify the terms set out therein. Therefore, staff submitted Ordinance #13-0756 for Town  
480 Council's consideration and approval. The town stormwater committee met on Tuesday, July 16<sup>th</sup>, and  
481 formally concurred to support Resolution 13-138. The stormwater committee also supported the  
482 proposed ordinance, but with one change. The stormwater committee believed that sailboats should  
483 specifically be named as allowed on the stormwater retention ponds, because a sailboat would be  
484 considered in the phrase "any other type boat." The committee members knew residents who had been  
485 sailing in the ponds for some time. The recommendation was to include sailboats as an allowable boat in  
486 Section 12.102. The following recommendations for amendments to also allow flat bottomed fishing  
487 boats commonly referred to as "Jon" boats that were propelled by paddles (no motors) that were  
488 frequently used in shallow waters such as the town's stormwater retention ponds; limit watercraft length to  
489 a maximum of 20-feet; limit all watercraft to two person capacity, which would change 4-person canoe to  
490 2-person canoe in Section 12.102. Since the boat length was being limited, Ms. Fellner said the number  
491 of people in a craft might not be necessary. Town Council might wish to consider that option, because  
492 some small canoes would accommodate three passengers. The last recommendation was to have a  
493 legal review by the town attorney before second reading. Ms. Fellner suggested a change to 12.104  
494 Storage, to strike "and be stored on the owner's land" and to state "in no case shall remain in the  
495 retention ponds during non-daylight hours." She explained that the town did not have authority to  
496 stipulate where anyone stored private property.

Mayor Samples said there were also several other amendments members had discussed. He encouraged Mr. Smith and Mr. Stevens and the administrator to work together to bring the ordinance back to Town Council for consideration. Mayor Samples said there was a Resolution in place, so there was no sense of urgency.

Mr. Smith moved to suspend the rules to allow discussion. Ms. Kohlmann seconded. All voted in favor. **MOTION CARRIED.**

Mr. Smith said he would like to let the public know the direction that they were going. Changes included changing the 20 foot length to 16 feet; allowing sailboats; change the storage requirement as Ms. Fellner mention, and that boats would be allowed from sunrise to sunset. Mr. Smith did not want to specify how many people could be in the boats, but wanted to specify how big the boat could be, and that would be limited to 16 feet.

Mr. Stevens said since this was town owned property, he also wanted to make sure that non-motorized boats were allowed. He wanted to see a requirement that all persons using the lakes for boating be required to wear United States Coast Guard approved life jackets while on the stormwater retention ponds as required by state law and the United States Coast Guard. Mr. Stevens believed there should be a fine, if a passenger in the boat failed to wear one similar to a seat belt violation, because this was for safety of the people. He thought signage should be posted with regulations at any stormwater pond where boats were allowed. Mr. Stevens said safety was the most important thing, because the town had liability. He gave an example of a grandfather and young child where the child fell in the water and the grandfather tried to save him that resulted in both of them drowning. If the child had a life preserver, he would "pop up like a cork" and the grandfather could safely get him out of the water. He reminded everyone of the accident at Sandy Island when three people drowned, because they were not wearing life jackets. Mr. Stevens said his brother-in-law drowned on Mother's Day 1981, because he was not wearing a life jacket. He would not take any passenger without them wearing life jackets. It was imperative; important that the town require life jackets for their safety, if council allows boats in the water.

Ms. Kohlmann reiterated that she did not like adopting ordinances that would not be enforced, because she thought it was a waste of time and energy. She had a hard time swallowing the fines, because these penalties would be much like the fireworks penalties. She agreed with Mr. Beck, because she had kids that would probably leave a boat out, if she was out of town, and would come home to a \$15,000 penalty if she would gone 14 days, and the kids had not put the boat away. She asked if the penalty for jail time and fines could be reconsidered to possibly include a written warning the first time, and then fees would applied with the second offense or some other enforceable penalty. Ms. Fellner said the attorney would have to be consulted about that. Ms. Kohlmann said okay. Ms. Fellner said there might be some unintended consequences. Ms. Kohlmann said she just wanted to bring it up and she expected Ms. Fellner to defer to the attorney.

Mayor Samples said penalties were a function of the judicial system, and judges apply penalties.

Mr. Johnson pointed out that having a legal review by the town attorney was one of council's options, so any language crafted should definitely be reviewed by the attorney. At the same time, he also wanted to thank Mr. Beck. Mr. Johnson said he glanced at Mr. Beck's email message this afternoon, but did not have a chance to digest it. Mr. Beck had some good points, and he would like for council and staff to consider some of his opinions. Mr. Johnson said he would be glad to forward the email message to any member that had not yet received it. Personally, Mr. Johnson did not have a problem with minimal electric motors. Someone spoke about electric jet skis. They did not want electric jet skis, but a small electric motor was not a problem. Most people can walk or crawl faster than a small electric motor would propel the boat. He hoped that Town Council would use a little common sense in crafting the ordinance, because he did not want to revisit it multiple times to make amendments like seemed to happen so often.

Mayor Samples appreciated Mr. Johnson's comments and reiterated that a resolution was in place and part of the resolution stated that staff should prepare an ordinance for council's consideration.

553 He recognized that many councilmembers were out of town last week for the Municipal Association  
554 Summer Meeting, and may not have had an opportunity to discuss the ordinance legally to develop a  
555 consensus on the improvements that needed to be made. Mayor Samples said the stormwater retention  
556 ponds looked much better than they did ten years ago, because public works and past councils invested  
557 time and money in those retention ponds. The depths vary in both Lakes Elizabeth and Dogwood. He  
558 knew that Mr. Beck made many positive comments, and as he noted, he knew where the sand shoals  
559 were located. However, the problem was that there were children and people who drive up to the banks  
560 to boat in the ponds that were not familiar with the ponds. The ponds were a thing of beauty, and he  
561 thought it would be a mistake for the town to assume the great liability that went along with operating a  
562 recreational, wide open pond. Everyone knew that people had fished in the ponds for years, and that was  
563 great. The world has changed and the council needed to make certain that parameters were in place.  
564 Mayor Samples thought that was worth doing, and also noted that Mr. Beck's sailboat was about 8 feet by  
565 4 feet.  
566

567 Mr. Smith thought under penalties that the imprisonment portion should be removed in  
568 consideration of Mr. Beck's comments, and maybe a \$100 fine should be considered. That was  
569 reasonable and it would be easy to write a ticket and the policemen might be more likely to issue a ticket.  
570 Those were the type things he would suggest as changes.  
571

572 Mr. Smith moved to reconvene regular session. Ms. Kohlmann seconded. All voted in favor.  
573 **MOTION CARRIED.**  
574

575 Mayor Samples asked if any other clarification was needed. Ms. Fellner heard all the comments  
576 and asked if Town Council wanted to pass first reading and then have changes presented. Mayor  
577 Samples said no, he believed Town Council wanted to see a clean draft. Ms. Fellner said thank you.  
578

579 **iv. 13-0757 to amend §13-52(d)(8) Marine Construction, to eliminate docks, Administrator**  
580 **Fellner.**  
581

582 Ms. Fellner said the subject was eliminating docks from the building permit fee schedule. An  
583 Ordinance to amend Chapter 13, Article III Division 2 Section 13-52(d)(8) to eliminate docks from the  
584 Building Permit Fee schedule. The reason was to remove the word "docks" from the building permit fee  
585 schedule to eliminate any confusion in the future. Since docks were prohibited by the ordinance adopted  
586 July 12, 2013, there was no reason to have them included in a fee schedule. Staff asks that Town  
587 Council approve Ordinance 13-0757 as written.  
588

589 Mayor Samples said the ordinance proposed to strike one word. Ms. Fellner said yes, and that  
590 was the word "dock."  
591

592 Mr. Johnson moved to suspend the rules to allow discussion. Ms. Kohlmann seconded. All voted  
593 in favor. **MOTION CARRIED.**  
594

595 Ms. Kohlmann believed there was a typographical error on the ordinance, because in the fourth  
596 paragraph down it states Section 13-53 and it should be Section 13-52. Ms. Fellner said that would be  
597 corrected.  
598

599 Mr. Smith said existing docks were grandfathered, and asked if they could be repaired. Ms.  
600 Fellner said they could not be repaired, because they were nonconforming. Mr. Smith said he would  
601 probably vote against the ordinance, because he thought the existing docks should be allowed to be  
602 repaired.  
603

604 Mayor Samples asked if there was a 50-percent rule that applied to nonconforming uses with  
605 respect to repairs. Ms. Fellner said she would have to check. Mayor Samples said there were  
606 nonconforming properties all around town, and repairs were allowed on those. There was a point that  
607 triggered the stop work. Ms. Fellner said she would check with the planning director.  
608

609 Ms. Kohlmann moved to reconvene regular session. Mr. Smith seconded. All voted in favor.

610 **MOTION CARRIED.**

611

612 Mr. Johnson moved to approve first reading. Ms. Mabry seconded.

613

614 Ms. Kohlmann said the typographical error mentioned should be corrected to state 13-52.

615

616 Mr. Johnson asked Ms. Fellner to advise Town Council on the allowable repair percentage  
617 amount for nonconforming uses. Ms. Fellner said that would be done by tomorrow.

618

619 Mayor Samples, Mayor Pro Tempore Mabry, and Councilmembers Dodge, Johnson, and  
620 Kohlmann voted in favor. Councilmembers Smith and Stevens voted against. **MOTION CARRIED.**

621

622 **B. 6<sup>th</sup> Avenue South Pond, Director Adair.**

623

624 Mr. Adair said the 6<sup>th</sup> Avenue South pond issue had been discussed several times over the last  
625 year. A decision paper was prepared in October 2012; he was certain a consensus was given at some  
626 point, but documentation could not be found. The decision paper was presented so that Town Council  
627 could formalize the work completed so far and to ascertain whether Town Council wished to move  
628 forward with filling in the pond. Earthworks was retained to prepare engineered site plan, grading and  
629 drainage plan to submit to DHEC for a land disturbance permit, which was sent to DHEC a couple of  
630 weeks ago. The US Army Corp of Engineers inspected the pond and issued a "non-jurisdictional"  
631 determination, meaning that the pond was not waters of the United States, and the Corp had no problem  
632 with the town filling it. Mr. Adair asked for consensus from Town Council to move forward with the fill  
633 project. The plan was to have the plan engineered, but construction would be performed by staff.

634

635 Mayor Samples asked what the pros and cons were for proceeding with the project. He thought  
636 that was the basic issue and asked why the town should fill the pond.

637

638 Mr. Adair said the 6<sup>th</sup> Avenue South pond was created roughly ten years ago. It was not of  
639 sufficient depth or size to be maintainable in an aesthetically good condition. He thought the quality of life  
640 for the residents had been negative impacted by the pond, because it was a breeding ground for  
641 mosquitoes; aquatic weeds, and the pond created foul odors. The pond could not be managed properly  
642 due to its size, it did not take in enough fresh water; it was too shallow. The motor was replaced several  
643 times in the aerator, due to bottoming out and sucking up muck. During most of the year, water was up to  
644 thigh level. There was full sunlight, which created good conditions for algae blooms. Mr. Adair said to his  
645 knowledge there was no reason to prevent creating a more aesthetically pleasing area with benches or  
646 possibly a couple of bench-type swings and shade trees.

647

648 Ms. Kohlmann asked what the total cost of the project would be, and if it was budgeted. She also  
649 asked if residents in the area could be consulted to determine their opinions, because some of them had  
650 spoken to her and they were opposed to sitting areas. She did not want the town to spend \$10,000 that  
651 would cause headaches for people. Mr. Adair said at one time there was a gazebo at that location that  
652 was a hang-out for teenagers. He would not propose the same thing, but some type green space should  
653 be created for the town. Ms. Kohlmann said if the project was done, she felt very strongly that before  
654 moving forward that she personally wanted to see the plans, and that they be shared with the area  
655 residents. She asked if there a possibility that DHEC would deny approval of the town's request, and if  
656 so, she believed that a decision should not be made now. Mr. Adair said it was extremely unlikely that  
657 DHEC would refuse approval, but it was possible. The area was less than a half acre of land, and it was  
658 within a block of another larger retention pond. He was not aware of any adverse impact that would be  
659 made by filling the pond. Ms. Kohlmann said it was unfortunate that the paperwork was not done sooner.  
660 She understood it was a nuisance, but she since the process was delayed somewhat that nothing else  
661 should be done until everyone was fully aware of what was occurring and they should have all the  
662 answers so she was sure the town was "right on the money" with the project. Mr. Adair said at this point  
663 there was nothing else to be spent until the determination was received from DHEC. Ms. Kohlmann said  
664 she believed Mr. Adair was asking for consensus to move ahead. Mr. Adair said just to formalize the

665 process that already was started was basically what he was asking. Ms. Kohlmann had no problem  
666 formalizing the process, but she did have a problem with doing any kind of physical changes to the area  
667 without seeing the whole plan.  
668

669 Mayor Samples asked if Mr. Adair had any cost estimates. Mr. Adair said no. Mayor Samples  
670 agreed with Ms. Kohlmann and thought council needed more information.  
671

672 Mr. Stevens noticed in the public works report that repairs were made to the fountain at 9<sup>th</sup>  
673 Avenue South pond. He mentioned that because he knew from past experience and people that talked to  
674 him about that that was a problem at one time. It was a mosquito infested pond, and the people that lived  
675 next to it complained, complained, and complained, and nothing was ever done. Finally, the people sold  
676 their house and then it was all miraculously fixed. It got a pump in it and never has anyone had any  
677 problem with it. Mr. Stevens had questions about the 6<sup>th</sup> Avenue South pond. He knew a pump was in  
678 the pond, but there were two types of aeration. One was with a diffuser system that circulated water like  
679 people used in aquariums that shoot air to the bottom of the pond to create water circulation. Mr. Stevens  
680 said he looked at the pond and he noticed that the weir was pulled out and the water was like a foot and a  
681 half lower than it should be. He talked to Steven Strickland and Mr. Strickland told him that there was  
682 around \$10,000 just in materials that would have to be spent on this. Mr. Stevens asked if that had been  
683 budgeted to perform the job for this fiscal year. Mr. Adair said no, it was not, and explained that he was  
684 asked last fall to look into this. Mr. Stevens said this would be an extra expense over and above what  
685 was budgeted of between \$10- or \$20-thousand to fix the pond, and reiterated that it would be an  
686 unbudgeted expense.  
687

688 Mayor Samples said that was correct. As a point of information to the council, Mayor Samples  
689 said the 6<sup>th</sup> Avenue South pond was discussed a couple of times and one of the reasons it was on the  
690 agenda at this meeting is there was confusion. He believed Mr. Adair alluded to it as to whether or not  
691 there was a consensus or not. The very reason this discussion was being held was to insure that Town  
692 Council was informed. Mayor Samples said that members may ask Mr. Adair questions, but it was  
693 unnecessary to be accusatory in questioning him.  
694

695 Mr. Stevens said nobody was being accusatory; they were asking questions and he thought that  
696 was what they had to do as councilmembers. He asked Mr. Adair how many times the pond was cleaned  
697 since it had been in existence. Mr. Adair asked if by cleaned he meant dredged; it had never been  
698 dredged. The 9<sup>th</sup> Avenue South pond was dredged that was why it was in better shape. The 6<sup>th</sup> Avenue  
699 South pond could not be dredged, because there was a high-pressure sewer line running underneath it.  
700 Mr. Stevens asked if the pond received silt from other runoff. Mr. Adair said every pond received silt. Mr.  
701 Stevens said about three weeks ago he noticed the county had a vacuum truck cleaning out the pond that  
702 emptied into Lake Elizabeth. He asked if that had ever been done in town. Mr. Adair said the county was  
703 cleaning a screen filter system located there that prevented debris from travelling into Lake Elizabeth. Mr.  
704 Stevens asked if any engineering had been done on this since it came up. Mr. Adair said just the site  
705 plan; grading and drainage plan, and the NOI (Notice of Intent) submittal. Mr. Stevens asked if anyone  
706 like Dr. Libes at CCU (Coastal Carolina University) was contacted to determine how it would affect water  
707 quality. Mr. Adair said no, and an aerator was the wrong equipment to have in the pond. A decorative  
708 fountain would be more effective, because the pond already had an oxygen level saturation that created  
709 all the algae. Mr. Stevens asked if the lower the water level, the more likely algae was to grow. Mr. Adair  
710 said absolutely. Mr. Stevens asked why then was the weir taken out. Mr. Adair said that was not done  
711 during his tenure; he did not know. He thought probably it was done because the water level over-topped  
712 the two pipes at the south side of the pond. Mr. Stevens did not think he could vote to do anything on the  
713 pond until he had a little bit more information, because he thought something was missing, but he was not  
714 sure what it was. He said it seemed to him like they were spending unbudgeted money when they were  
715 already \$159,000 in the hole according to the budget.  
716

717 Ms. Mabry asked Mr. Adair for a rough estimate of how many times he had talked about this  
718 pond, and when he would receive all the information from DHEC. She remembered him standing at the  
719 podium many times discussing the pond. She asked if she was correct, or was this something new that

720 everybody was getting concerned about. Mr. Adair said this was the fourth or fifth time he had presented  
721 this matter to Town Council. Ms. Mabry said okay; thank you.

722  
723 Mr. Johnson said Mr. Adair was correct; the 9<sup>th</sup> Avenue pond was dredged and there was  
724 extensive cleaning done in that area. At the time, the pond was expanded, because there was a drainage  
725 ditch on one side of it between 9<sup>th</sup> Avenue South and the pond. That was why it looked so good. Mr.  
726 Johnson suggested that a lot of money could be saved by using the dredged fill dirt that was sitting at  
727 public works to fill in the pond. Mr. Adair said that was the plan. Mr. Johnson said thank you.

728  
729 Ms. Kohlmann said in all fairness to Mr. Adair, he had stated many times that he was not here  
730 when the pond was created; when the weirs were taken out, and she believed councilmembers should  
731 ask questions, but maybe in this case, an email message with specific questions should be sent to Mr.  
732 Adair. She reiterated her concern about seeing the plans and determining the money involved before a  
733 vote was taken.

734  
735 Mayor Samples agreed with Ms. Kohlmann and asked for a motion to reconvene regular session.

736  
737 Mr. Johnson said rules had not been suspended.

738  
739 Mayor Samples asked if Town Council wanted to send the matter back to Mr. Adair to bring back  
740 when approval was received from DHEC. Then at that time, a plan and projected costs could be  
741 presented for consideration, or would members prefer that no more time be spent on this matter.

742  
743 Mr. Adair believed that not filling the pond would be a mistake as it could not be managed in its  
744 current condition.

745  
746 Mayor Samples said he and Mr. Adair had discussed the pond before, and he had also received  
747 calls from area residents, because it was a mosquito generator. When Mayor Samples asked how the  
748 pond could be improved to just make it look better Mr. Adair told him that the water gets so much oxygen  
749 that the algae blooms when the conditions were right. Mr. Adair explained there was no way around it.  
750 The pond was in full sun and shallow. He was there today taking photos, and two residents approached  
751 him asking when it would be filled.

752  
753 Mayor Samples asked if Town Council would agree that when Mr. Adair received the DHEC  
754 approval that he would present a cost estimate for filling the 6<sup>th</sup> Avenue South pond. Mayor Samples said  
755 he would not mind just planting grass over the area.

756  
757 Mr. Johnson agreed, but the last time this was discussed, Mr. Adair said that he would present  
758 any plans for improvement on the property like benches or other amenities and that he would ask Town  
759 Council for approval.

760  
761 Mayor Samples said at this point, Town Council needed to decide whether to fill the pond. It  
762 appeared that members were not prepared to do so now. Mayor Samples asked Mr. Adair to bring the  
763 matter back once the DHEC approval was received. Mr. Adair said he would do so.

764  
765 **C. 50<sup>th</sup> Anniversary Plans & Events and Town Magazine, Administrator Fellner.**

766  
767 Ms. Fellner presented a number of events from the 50<sup>th</sup> focus group that it would like for council  
768 to approve, a copy of which is in file. No specific funding was being requested at this time, but members  
769 would like permission for to solicit contributions to fund the events. This would be done in accordance  
770 with the procedure Town Council authorized earlier during this meeting. The focus group would like to be  
771 responsible for the content of January 2014 town newsletter, which would be solely about the 50<sup>th</sup>  
772 Anniversary Year. The newsletter would outline and showcase all the upcoming events and  
773 opportunities. The group would also guide the content of the town magazine. The Myrtle Beach Area  
774 Chamber of Commerce (hereinafter referred to as "the Chamber") was working with the group on the  
775 magazine. Ms. Fellner said the projected number of copies is 40,000. The magazine would be 72 pages,

776 plus cover, and include 28 pages of advertising, which the Chamber would help sell. If all ads were  
777 purchased, it should fully fund the magazine. The focus group also made arrangements for an official  
778 photographer for all 50<sup>th</sup> events at a very minimal fee and the town has rights to all of the photographs. At  
779 present, the group had a volunteer graphic design intern from Horry Georgetown Technical College  
780 working with them. They selected a 50<sup>th</sup> Anniversary logo, and merchandise with the 50<sup>th</sup> logo would be  
781 sold at all events. The focus group proposed that banners celebrating the 50<sup>th</sup> Anniversary be placed on  
782 the 25 light poles on Highway 17 Business; the 15 light poles on Surfside Drive, and the 18 lamp posts on  
783 Surfside Drive. The group was currently seeking patrons and sponsors for a hardback commemorative  
784 book depicting the town beginning before its incorporation took place to the present date. Business  
785 sponsors were also being sought for planned events; to date they have secured a number of  
786 commitments. The proposed specific events include Town of Surfside Beach Night at the Pelicans  
787 Baseball Stadium, and a 50<sup>th</sup> Anniversary Ceremony on March 14<sup>th</sup> located at the Surfside library. The  
788 event would include speakers, oral history, a PowerPoint presentation, recognition of past and present  
789 officials, and recognition of families who helped establish the Town of Surfside Beach. A Founders Day  
790 Weekend from May 2<sup>nd</sup> to 4<sup>th</sup> including Friday night music and cook out at the pier; Saturday, Old  
791 Fashioned Carnival with jugglers, magicians, stilt walkers, carousel rides, cotton candy, hot dogs, et  
792 cetera; Fireworks funded by the Chamber on Saturday night; Blessing of the Beach with area pastors and  
793 gospel music on Sunday morning followed by a picnic at the passive park with food trucks. Founders Day  
794 t-shirts would be available for purchase. Thanks for the Memories would be October 18<sup>th</sup>, 2014 at the  
795 Yaupon parking lot and includes an oyster roast; barbeque, and car show. A blue grass band would play  
796 during the day and a jazz band would perform at night. Ms. Fellner asked for consensus of Town Council  
797 to move forward with the proposed plans, including the group's intention of soliciting funds on behalf of  
798 the town.  
799

800 Mr. Smith asked if Ms. Fellner would send the 50<sup>th</sup> logo to councilmembers again, because he  
801 could not remember what it looked like. Ms. Fellner said she would. Mr. Smith asked if the magazine and  
802 commemorative hardback books were separate things. Ms. Fellner said yes, there were separate. Mr.  
803 Smith asked if the hardback book would have sponsors instead of advertisers. Ms. Fellner believed that  
804 was correct. Mr. Smith asked if the town would have to pay a lot for that or whether it would be self  
805 supporting. Ms. Fellner believed it would self supporting, and asked Mr. Childs to explain further.  
806

807 Mr. Bob Childs, chairman of the 50<sup>th</sup> Anniversary focus group, said they were seeking sponsors  
808 for the hardback book now and it should not cost the town anything. There was a lot of money promised  
809 to the group right now. He knew that Town Council was budget conscious, but if each person on council  
810 would solicit sponsors and maybe set a goal of \$5,000 each, with the money they already have they could  
811 do really good. The group was working hard to get sponsors. The plans were in the beginning stages.  
812 The group met weekly; it was operating well within its budget means. He hoped that they could do better  
813 than the budget.  
814

815 Mr. Smith asked Mr. Childs how much it cost for an advertisement in the magazine. Mr. Childs  
816 said there was no advertising in the commemorative book. The magazine advertisements could be  
817 addressed by Ms. Fellner.  
818

819 Mayor Samples reminded councilmembers that this was background information, which was  
820 previously presented.  
821

822 Mr. Smith said just to be informed, they needed to hear things. Ms. Fellner had the breakdown of  
823 advertising cost for a full page, half page, and quarter page. There were also prices for premium spots,  
824 which were the inside front and back covers, and the outside back cover. She would email the  
825 information to Town Council. Mr. Smith said he liked the planned events listed.  
826

827 Mr. Childs said they tried to pick the months and weekends that would have the best weather.  
828 Much of the activity will be outdoors. The event at the library would have indoor and outdoor activities. If  
829 the weather was bad, there would be plenty of room to move inside.  
830

831 Ms. Dodge asked if the commemorative book would be sold. Mr. Childs said a few would be  
832 given as gifts to some individuals that helped establish the town, but the intention was to sell them.  
833

834 Mr. Childs noted that the group was finding it difficult to gather photographs, because very few  
835 people owned cameras prior to the 1970s. A number of people have donated, but it was surprising how  
836 few pictures existed. However, he believed the group was ahead of schedule having secured most of the  
837 events.  
838

839 Mr. Stevens thanked Mr. Childs for volunteering to work on the events as it was a very noble  
840 cause and it showed he was a concerned citizen and willing to do things to benefit the town. Mr. Childs  
841 said thank you very much.  
842

843 Mayor Samples asked how 40,000 magazine copies were determined to be the right number.  
844 Ms. Fellner explained that the goal was to finish the year without any remaining magazines. The  
845 projection was that 20,000 magazines would cover all of the rental units, the turnover, and the hotel  
846 rooms for the majority of the next summer season. Some were planned to be placed in the library, and to  
847 offer to the advertisers.  
848

849 Mr. Stevens said Mr. O'Dare from *The Myrtle Beach Herald* wrote a very good article about  
850 Surfside Beach in the earlier part of the year and suggested if the press was utilized as a resource for  
851 information. Mr. Childs said the group had that article and had contacted the press. There were a  
852 number of written history articles about the town.  
853

854 Mayor Samples asked if there were any cost estimates for the magazine. Ms. Fellner said 40,000  
855 copies would cost about \$72,000, which would be perfect bound, good quality paper, 72 pages plus  
856 cover. The 28 pages of advertising would fund the magazine. Mayor Samples asked if advertising would  
857 be sold outside the town. Ms. Fellner said yes, but there was nothing wrong with doing so. Mayor  
858 Samples agreed there was not, however, he was concerned that \$72,000 was a lot for the town to  
859 commit. Ms. Fellner said the Chamber was not concerned about selling all the advertising, and expected  
860 that within six weeks it would all be sold. Mayor Samples asked if the Chamber was selling all of the  
861 advertising. Ms. Fellner said yes.  
862

863 Mr. Stevens asked if there would be a charge for the magazine. Ms. Feller said it was free.  
864

865 Mr. Childs said his small group was stretched kind of thin, so he repeated his request to  
866 councilmembers to help get some sponsors. That would help the focus group immensely.  
867

868 Mayor Samples asked if there was consensus to proceed. **COUNCIL CONCURRED.**  
869

870 **D. Recommendation from Keep Surfside Beach Beautiful Committee (KSBB)**  
871 **Administrator Fellner.**  
872

873 Ms. Fellner said the Keep Surfside Beach Beautiful Committee approved a motion during its last  
874 meeting to ask Town Council for support in the next phase of the KSBB pilot project to determine the best  
875 self-watering hanging flower baskets that could be installed on Surfside lampposts to enhance the town's  
876 appearance. To date, this project had involved testing of various self-watering devices, flower pots, soils,  
877 soil amendments, plants, and environmental conditions. KSBB proposed the installation of four hanging  
878 baskets on the lampposts in the pier parking lot, for which the cost would not exceed \$250. KSBB  
879 members would be responsible for designing the original baskets and providing all maintenance for the  
880 remainder of the 2013 year. The project would be evaluated at that time for any additional  
881 recommendations. Ms. Fellner distributed some photographs, copies of which were in file. She believed  
882 the \$250 cost might be for residential brackets. Ms. Fellner believed the actual cost might be more,  
883 because the least expensive commercial bracket she found that had a double basket configuration was  
884 \$195.85. The town must use commercial grade brackets, because of liability and damage that might be  
885 caused if someone grabbed the planter and it fell,  
886

887 Mr. Smith asked if there was money in the budget that could be used for this project. Ms. Fellner  
888 said this particular item was not budgeted, but there were funds budgeted for landscaping that could be  
889 used for this purpose. Mr. Smith asked if there was a place to get the money without increasing the  
890 budget. Ms. Fellner said yes. Mr. Smith asked what Ms. Fellner's recommendation was for the total  
891 amount of money that might be needed to spend. Ms. Fellner expected the cost to be closer to \$500. Mr.  
892 Smith asked if a single bracket would be placed on four poles. Ms. Fellner said there would be a double  
893 bracket on two poles. Mr. Smith said okay.

894  
895 Mayor Samples said this was a pilot program, and the KSBB members want to try it to see how it  
896 works.

897  
898 Mr. Smith said the KSBB would maintain the baskets, and asked if that meant they would water  
899 the baskets. Public works would install the baskets, but would not have to be watering them. Ms. Fellner  
900 said for the remainder of 2013. Mr. Smith said next year, they would have to reconsider the project; it  
901 was only being approved for this year. Ms. Fellner said yes.

902  
903 Ms. Kohlmann asked if hospitality funds could be used for the project, since it was located at the  
904 pier. Ms. Fellner said yes, there were a number of places from which money could be used. Hospitality  
905 and pier funds were pretty slim right now. There was money available in landscaping. Ms. Fellner was  
906 confident that \$500 in funds was available from one of the funds.

907  
908 Mr. Stevens assumed this would only be two lights at the pier for right now. Ms. Fellner said on  
909 the ones that were already there. Mr. Stevens knew the KSBB had been doing work at the pier, because  
910 he drove by and saw its members working on the flowers. He supported the recommendation.

911  
912 Mr. Johnson asked if Ms. Fellner considered other design options for the hangers, for instance  
913 the type that form a complete circle planter at the top of the lamppost like are used in Greenville. Ms.  
914 Fellner said she was just considering prices and commercial grade products. She would look into the  
915 circular type planters and ask KSBB to consider them, but Ms. Fellner expected them to be more  
916 expensive.

917  
918 Mayor Samples asked if there was consensus to proceed.

919  
920 Mr. Smith offered consensus, but had caveats that no more than \$500 would be spent and that  
921 the KSBB members would maintain and water the plants as it recommended.

922  
923 Ms. Kohlmann said she agreed.

924  
925 Mayor Samples said that **COUNCIL CONCURRED.**

926  
927 **E. Committee Appointments (may be deferred until after executive session.) i. Recreation/  
928 Special Events (1 vacancy): Linda Woodlief; Cindy Grace, and Erin Adams. ii. Construction Board  
929 of Adjustments & Appeals (1 vacancy): David Morrison.**

930  
931 Mayor Samples said if there were no objections, this item would be addressed after executive  
932 session. **THERE WERE NO OBJECTIONS.**

933  
934 **8. DISCUSSION – Any matters of concern or information to be discussed by Town  
935 Council.**

936  
937 **Stormwater Millage and the Disposition and past, present, and future expenditures of  
938 stormwater funds, Councilmember Stevens.**

939  
940 Mr. Stevens said this was brought up, because a lot of people called him about the statement  
941 made during the June 25, 2013 Town Council meeting, and he read from the approved minutes where it  
942 stated

*Mayor Samples said the truth was that in 2008 Town Council readopted 5 mils for stormwater, which means that 2008, 5 years, about \$1.5 million was raised for stormwater. You could do the math. There was about \$.5 million saved for stormwater projects. He asked where the other \$1 million was spent. This council spent some of it on stormwater, but much of it was not spent on stormwater. Mayor Samples was trying to lay out the truth. It was a fact. He asked if anyone saw any big stormwater projects going on during the last five years.*

Mr. Stevens said after that discussion several people called him. He had only been on council one year and three months, so he did not know what happened. It appeared that there may be a misappropriation of funds over the last five years. Because of delays, people like Ray Kawa on 3<sup>rd</sup> Avenue North, was maybe having to spend thousands of dollars to repair his house. Mr. Stevens said he did not know where the money went. Taxpayers paid 5 mils in good faith that the money would be spent on stormwater. He felt like the people had been dealt an injustice if the town had lost \$1 million. That was a lot of money. It would pay his taxes a thousand times; a thousand years. That was the reason Mr. Stevens brought this up. He thought they needed to look into it and find out why there is \$1 million in stormwater millage that has just disappeared. Mr. Stevens said maybe they should have some independent body investigate it. Maybe the solicitor should look at it; maybe SLED (South Carolina Law Enforcement Division). He did not know. When \$1 million disappeared it gave him a big concern. He wanted to know where that money went. He said maybe members that had been on council longer than he could shed some light on it.

Mayor Samples asked Mr. Stevens to read the quote one more time for the record.

Mr. Stevens said it was the June 25<sup>th</sup>, 2013 line 688,

*Mayor Samples said the truth was that in 2008 Town Council readopted 5 mils for stormwater, which means that since 2008, 5 years, about \$1.5 million was raised for stormwater. You could do the math. There was about \$.5 million saved for stormwater projects. He asked where the other \$1 million was spent. The council spent some of it on stormwater, but much of it was not spent on stormwater. Mayor Samples was trying to lay out the truth. It was a fact. He asked if anyone saw any big stormwater projects going on during the last five years.*

Mayor Samples appreciated Mr. Stevens reading the statement again, and his taking time to pull some sentences out in which he, Mayor Samples, misspoke in terms of the actual projects. Mayor Samples said his question was which projects were done; \$1 million projects. He said frankly, a lot of that money was spent on water quality issues like dredging the lakes. What he was referring to was Mr. Kawa and others have problems that were construction related, like the \$6 million that the town spent between 2001 and 2008 on the south end putting pipes in the ground to move water. Mayor Samples acknowledged that there was a sense of hyperbole in his statement; however, there was no malfeasance. So, he appreciated Mr. Stevens bringing the question up, and he hoped that he satisfied Mr. Stevens' concerns, because he certainly would hate to send staff on a wild goose chase to provide additional information, but whatever council wanted to do would be done.

Ms. Fellner said she actually had that information. Since 2004, the total collected was \$5,781,040; total expenditures for stormwater were \$5,431,126, netting \$349,914. She did not know where the \$1 million amount was coming from. She had a spreadsheet with all the capital project expenditures and would be happy to share it with Town Council.

Mayor Samples said it was, in fact, a capital project fund. That was what the ordinance called it.

Mr. Stevens said this was brought up because in fairness to all the people who paid taxes, they wanted an answer. If the answer Mayor Samples gave satisfied them, they would let him know.

997 Mayor Samples said he understood and said you could please some of the people some of the  
998 time. Some of them, you may never please. But, that was okay. They were all different. It was a great  
999 town.

1000  
1001 Mr. Smith asked Ms. Fellner if she had the list of projects and the amounts spent on each in the  
1002 data. If she did, Mr. Smith asked her to read off a few of them, or send the information to Town Council in  
1003 an email message. Ms. Fellner did not have a specific project list, but believed it could be compiled.  
1004

1005 Mayor Samples said he could help, since he served on the stormwater committee in 2000.  
1006 Melody Basin, Floral Basin, Myrtle Basin, and lake dredging was completed. A major stormwater project  
1007 had not been done since the lakes were dredged. Ms. Fellner said that was correct, and it was evidenced  
1008 in 2008-2009. Mayor Samples said that was the point of what he was saying. That was done in 2009.  
1009 He checked the audits himself prior to this meeting. Since 2009, the town had not done any projects, and  
1010 the town has \$349,914 balance in stormwater.  
1011

1012 Ms. Kohlmann asked if the money was accounted for according to Ms. Fellner and the projects  
1013 she listed.  
1014

1015 Mayor Samples said it sounded good to him. Ms. Fellner said that was correct.  
1016

1017 Ms. Kohlmann said there is no \$1 million missing, just so it was clear to everybody. She just  
1018 wanted to make sure that it was clear to everybody.  
1019

1020 Ms. Fellner said that Ms. King conducted an audit to insure that everything was accounted for.  
1021

1022 Ms. Mabry wanted to make sure everyone understood there was a complete audit performed  
1023 every year. In that audit, they would find the projects where the money was spent. There had been no  
1024 secrets; there was nothing hidden anywhere. The audit was for everybody to see; it was on line. You  
1025 could see where every dime goes. There was a checkbook register on line. Ms. Mabry said they did not  
1026 need to bring SLED in here to look at the books. The town had an audit that they paid a ton of money for  
1027 once a year so that it could be sent to Columbia and be checked again. She said the town was in good  
1028 shape as far as doing what it was supposed to, and accounted for the public's money. If the town wasn't,  
1029 she'd be the first one to tell everyone.  
1030

1031 Mr. Stevens said with all due respect to Ms. Mabry, he was elected to represent the people, and  
1032 when they asked him a question, he asked questions to try to get an answer. He asked Ms. Fellner if she  
1033 would email the information to all councilmembers. Ms. Fellner said she would be happy to.  
1034

1035 Ms. Dodge appreciated Mr. Stevens bringing the matter out, because that figure had been  
1036 bandied about, and it was a lot of money. When you think about \$1 million, she could use that about  
1037 now. So, she thought he was certainly spot-on to ask about it.  
1038

1039 Mr. Stevens wanted to say to the public that their taxpayer money sent them to Greenville for the  
1040 Municipal Association. He attended nine different seminars with Mr. Smith. There were a lot of different  
1041 topics and great ideas, including finding your city's niche and promoting it; building citizens engagement  
1042 through emotional engagement; police pursuits and balances; growing your local businesses through  
1043 business incubators, and marketing your city. It was very informative and attendance was worthwhile.  
1044 He and Mr. Smith attended the first 3-hour session, and were proud of their work. Mr. Stevens displayed  
1045 a t-shirt upon which they painted ways the town could be promoted using catch phrases like 'I found my  
1046 family in Surfside Beach,' and depictions of children building sandcastles among other family related  
1047 scenes. The seminar speaker, Peter Kageyama, suggested sharing their work with citizens. Some of the  
1048 ideas would only cost \$500. Mr. Stevens said a picture was painted on a street in one city that slowed  
1049 traffic where there were numerous complaints of speeding. Mr. Stevens credited Mr. Smith with creating  
1050 a tag line for something special done annually for citizens which was "light up on the Fourth of July," that  
1051 could be used to promote the Family Beach. He wanted to share with the public that their money went to  
1052 good use. They did many other things, too, including learning how to stretch limited dollars through

1053 cooperation, and business friendly programs and services. Mr. Stevens said thank you to the public for  
1054 sending him. He was glad he attended, and he stayed busy the whole time.  
1055

1056 **9. PUBLIC COMMENTS – General Comments (5 minutes.)**

1057  
1058 “Alan Beck, 626 10<sup>th</sup> Avenue North. I thank you for accepting my comments and thinking about  
1059 them and considering them. As you know, where we live, our kitchen and dining area look out on the  
1060 lake. We see everybody coming there. I think the lake kind of self-regulates itself. You talk about  
1061 sailboats. Yeah, I take my little boat out and sail. The sail that I have on it is for my 18-foot kayak, which,  
1062 of course, would be illegal, and I don’t put that in the water much anyway, because my little boat’s more  
1063 stable and that sail works fine. I know I know the Surfside resident that puts in a kayak with a sail on it,  
1064 and I don’t know how long that is. It’s a Hobie thing with a little bitty sail, and he’s, he’s no longer doing  
1065 that. I knew two people, other people had boats that weren’t Surfside residents that put them in the lake  
1066 to sail, and they did it about one or two times, and quit, because as you pointed out earlier, if you don’t  
1067 where the shallow parts are, it’s kind of frustrating, cause even if you don’t have any center board, which  
1068 a little, you know, pontoon sailboats or whatever don’t, you’ve gotta have a rudder in to steer. I know  
1069 where those spots are, because six or seven years ago when the water was really polluted with weeds  
1070 and things, I’m wasn’t aware of the water content then, because I was not testing, but the weeds grew  
1071 down kind of in the middle of the pond in certain areas, which were shallow. Those that were around  
1072 when it got dredged, I don’t know when that was, we’ve only been there six or seven years, but that was  
1073 where you could see the sandbars come up. So, I think it self-regulates. I think if somebody comes in  
1074 there with a big boat they’ll realize it doesn’t work. The fishermen that start to come in there and run their  
1075 little trolling motors around and fish, and they don’t catch much. Pretty quick out they figure out the  
1076 people that catch fish are the ones who just stand on the culvert where the more aerated water comes in  
1077 from Lake Elizabeth, and they pull out a lot of fish there. So, it kind of self-regulates. There may be some  
1078 pollution concern with trailers putting boats in the water, if those trailers have been in polluted water other  
1079 places. There’s [sic] been cases of that, you know, introducing issues. I don’t know if that’s a big deal or  
1080 not. The thing we get frustrated about is the people that come up from Murrells Inlet and put their boat in  
1081 and leave their trailer there in the water while they go do their little fishing, and then come back and get  
1082 out. So, there’s two people that I know of that habitually do that. The others are water testers. But, most  
1083 people are very good. They come up, most of ‘em take the boat out of the back of the pickup truck and  
1084 set it in. We could limit trailers in the water, but you know, some load ‘em in the water and pull ‘em back  
1085 out of the water. Most people are pretty good about parking their truck up there. The back side of your t-  
1086 shirt, Randle, could show the, the man fishing from the bass boat in the lake. We have one person that  
1087 we see every May for a week. He comes and puts his boat in outside of our window there about seven  
1088 o’clock in the morning and stays in the lake almost all morning. I finally figured it out this year, I said,  
1089 Sarah, I’ll bet his wife and kids are down on the beach. He can’t stand the beach, and this is his time to  
1090 get away and just sit there and fly fish. So, he does that, and we don’t see him again till the next May;  
1091 third week of May, I think they rent a condo or something. Water quality has gotten so much better in the  
1092 last six years from having all the weeds there and part of it; Randle asked about that vacuum thing, John  
1093 took us, all the water testers, over to show that. When that pipe got put under 17, we got all sorts of stuff  
1094 out of Deerfield. Mr. Hopkins has told the council in the past years about all of that stuff. Now they put  
1095 the screens in and they bring that thing up to scrape the stuff off. Our lakes have been relatively clean  
1096 and that was a good thing that the council pushed with the county with a lot of help to try to get that  
1097 filtering in there, and that’s helped Lake Elizabeth and Dogwood Lake come up tremendously in water  
1098 quality. Sure there’s a little bit of liability maybe for a boat on the lake. Is there a liability for encouraging  
1099 a surfboard competition? Could somebody drown in the ocean? Could be that you get sucked out by a  
1100 rip tide. There’s liability in swimming. There’s a liability in speed bumps that we built; somebody might,  
1101 you know, hit something and bounce off, or whatever. You can get sued for anything. So, if you ask a  
1102 municipal council if you could have liability, yeah, you could have liability. When I was doing federal  
1103 contracting years ago, some told me if you want to shut a contractor down, best thing to do is just send a  
1104 letter to OSHA and ask them go inspect the plant, and then the plant would get shut down, if you ask ‘em  
1105 right, and so I worry about asking a municipal council about liability. I’m sure there’s some, but I don’t  
1106 think that should be the decision point on whether people, you know, fish in the lake with small boats.  
1107 Thank you.”  
1108

1109 Ms. Dodge said did not know if it was appropriate right now, but she wanted to thank Mr. Beck  
1110 and the other people, if there were others, who test the waters in those lakes. It takes time and their  
1111 efforts were appreciated.  
1112

1113 "Ralph Magliette, Harbor Lights Drive. When I was here at the last council meeting, we were  
1114 talking about South Strand Helping Hand. I want to thank the council for supporting our August food  
1115 drive, but one thing I didn't have with me, and I want to apologize is I forgot to bring the little handouts for  
1116 South Strand Helping Hand, and more importantly, not only is it important that we as a community  
1117 support South Strand by providing monetary resources and food, but it's also equally important that we  
1118 reach out to people who might need the services that South Strand Helping Hands provides. So, I would  
1119 encourage people, I brought brochures, if you know anyone who might need the services of South  
1120 Strand, emergency help or they could find agencies that might be able to help them. They're located at  
1121 812 Poplar Drive South in Surfside Beach and their phone number is 843.238.4594. Thank you very  
1122 much, and I have copies of the brochure and I'll leave some in the back.  
1123

1124 "Tom Dodge, 15<sup>th</sup> Avenue North. I want to thank Ralph and Patti Magliette for moving to this  
1125 town, because they have been a dynamic duo and I want to thank Mr. Beck for his good comments.  
1126 Now, I'm gonna have to read a little story to you. This is a story about a very small, small town mayor.  
1127 Let's call him \*Idi. He gets very angry in council meetings. He yells in volunteer committee meetings.  
1128 Idi's threatened at least three councilmembers saying I will ruin in this town. He publicly criticizes in a  
1129 local newspaper a council person for not attending one hastily called meeting, while not publicly saying  
1130 anything about another council person who missed over 30-percent of meetings in roughly a six month  
1131 period. Idi vocally goads public attendees at council meetings by calling them out during the meeting.  
1132 This sounds very unethical to me. He telephones a town contractor, not a town employee, and curses at  
1133 them. He is out of control. Idi is a childish bully. Thank you. That's just a little story I wrote up." [\*Clerk's  
1134 Note: Per Mr. Dodge's clarification after the meeting, the name is 'Idi' as in Idi Amin.]  
1135

1136 "Ron Ott, 7<sup>th</sup> Avenue North. I don't have any stories."  
1137

1138 Mayor Samples asked Mr. Ott to wait a moment and called to Mr. Dodge explaining that Mr. Ott  
1139 was at the podium and had the floor. Mr. Dodge said he was answering a question for the ladies.  
1140 Unknown speakers said that was not true; they did not ask a question. Mayor Samples said everyone  
1141 should act like adults. Mr. Ott's time was reset.  
1142

1143 Mr. Ott: "I don't have any stories. I'm fresh out. But, I thought it was; the part about the  
1144 stormwater, I thought wow; this is being brought to our attention. So we need to look at it, and rightly so.  
1145 We need to look at these things, and I thought we did something good tonight. Yeah, we (\*\*) I don't know  
1146 what to do with 6<sup>th</sup> Avenue pond and it doesn't seem like anybody else does either, so let's not, we didn't  
1147 shoot from the hip, and then say, okay, let's aim. Let's come back and see how much is this gonna cost.  
1148 Is it worth it? What's wrong with it? All the information, you know. John, he takes care, he takes good  
1149 care of this town. He does. We gotta do something with the mosquitoes. I know it rains, but we have to,  
1150 you know, loosen up a little bit. The, it wasn't Al's 7-foot boat, sailboat, it's the way it's written in there, it's  
1151 a 20-foot, and I'm thinking, I'm looking at this, and I pay attention. I'm saying 20-foot sailboat; how we  
1152 gonna get that in there and out, too, I'm thinking. You know, and then somebody, Al's the only person  
1153 that knows how to go around this lake, so he needs to put some poles in there with flags on 'em for us  
1154 like them you have on the waterway so we can go around and we don't get caught. But I could see  
1155 somebody in there with a 20-boat, because every time we put in some kind of a [sic] ordinance, every  
1156 time we change something, somebody takes it to the max. They will abuse and abuse it. You put 20-foot  
1157 in there, (\*\*) we'll have a 25 in there. You never know. That's what I look at. I look at what we're saying,  
1158 and I look at let's watch how we spend their money, not let's not (\*\*) let's do it, let's make sure we're  
1159 gonna do it and it's gonna cost the proper amount of money, not just throw some money at it and see how  
1160 it comes out. We can end up making a little park out of there. Who knows, but let's see what's the best  
1161 way to spend our money. Thank you very much, and thank you for your comment that night. It just  
1162 opened my eyes. I'm still wondering. Maybe you misspoke, and maybe you didn't put everything in the  
1163 correct category, categorize it right, but I don't know where it went, but we'll find out, you know, it was  
1164 said there and we say it. Thank you."

1165  
1166 "Patti Magliette, 104 Harbor Lights Drive. Thank you. I'm gonna get quick and to the point. I am  
1167 in my last week or so of finishing up a project. I had been working with the historical committee and  
1168 reviewing the meeting minutes from Surfside Beach from 1964 up until now. I just think that I want to  
1169 residents to know a little about this town. I tell you, every time I come up here that I like living here.  
1170 Through reading those minutes, from 1964 up until present, and trying to pull out the mayors, and  
1171 everything accomplished, and who's on council, and who's committed to working on committees, it is just  
1172 so expansive. It just wears me; it just wears me out reading it. I don't know that residents realize how  
1173 much work goes towards being on town council, and how much review and study of various things,  
1174 whether building codes or whether safety issues or whether annexing certain parts of the town to become  
1175 Surfside Beach as we know it today. There was a lot that has been done and accomplished in this town  
1176 since 1964 up until now, and we're still working on it. We're still killing ourselves making this a better  
1177 town. It's been a good town since 1964. If you could look through those minutes like I've been and seen  
1178 the councilmen and the citizens of this town, what they had to say, and the people on various committees  
1179 and how hard they've been working, you would really think twice about how lucky you are to live here,  
1180 and the conscientious decisions that these people have made over the years about how to spend your  
1181 money and spend it wisely, I don't know that there's any other town, and in closing, I want to say that this  
1182 is the town with old fashioned value. I don't know of many other towns who open every council meeting  
1183 with an invocation, and a prayer to God. So, the hard work, the hard decisions, the concern that  
1184 everybody, whether it's towns people and council have in this town, it's all a reflected and it's all there,  
1185 and if you were to look at these minutes the way that I've been doing, you would just be amazed and  
1186 thankful for all that everyone accomplishes here. I say that, and in closing, God bless everyone and no  
1187 matter how much we wrangle at our meetings, we're doing it, and we're doing it right, and it's a beautiful  
1188 thing. Thank you." (*Applause.*)  
1189

1190 **10. COUNCIL COMMENTS.**  
1191

1192 Ms. Mabry: "I want to thank everyone for coming out, and I especially want to thank Patti  
1193 Magliette. Can you imagine going through all the minutes from 1964 till the present time; learning that,  
1194 retyping into a very condensed form so that we can have that. She has really become the true historian  
1195 now of Surfside Beach and I think her efforts; I cannot imagine doing that. So, thank you so much, and  
1196 we look forward to seeing you again."  
1197

1198 Mr. Stevens: "Thank everybody for coming out. Just want to make a comment about people who  
1199 come up here and speak. The people come up here and speak [sic] are the citizens, and they have every  
1200 right to speak. They have every right to criticize, and they have every right to praise. That's what makes  
1201 this country the best country in the world in that we have freedom of speech. Some people react to their  
1202 comments and council comments in different ways. Some people look at us and take us serious. Some  
1203 people giggle like little girls. Some people do all kinds of different ways, but the main thing is that the  
1204 freedoms we have we need to cherish them. People like Ralph Magliette and his wife, Patti Magliette, I  
1205 have to praise you. You people have been here only just a few years, and look at all the stuff they [sic]  
1206 already done. All we have to do is find the land and we can get a new south strand senior center. We  
1207 need to ask questions. I ask questions and some people don't like the questions I ask, but that's okay.  
1208 That's what I was hired to do, and if somebody asks me to ask a question, I'm gonna ask it. No  
1209 disrespect to anybody, and I think we got a [sic] answer. Something was said in the earlier council  
1210 meeting and I think we're getting the answer. Isn't that good when you get answers to the questions.  
1211 Then that (\*\*), that way you know that nothing's wrong, and I believe the Mayor, he was speaking  
1212 truthfully when he made that quote and he maybe he did want it to be come out (\*\*), but he's now given  
1213 us, the council, an opportunity to know where all the money went, and to report to you where all the  
1214 money went, so you feel good about what this council does. This is a great town. I can remember when I  
1215 was on the beach. My daughter was little. She said one day, daddy, we're gonna live here, and we  
1216 moved here. I'm glad I live here. I like this town. I like the people. Whether, some of 'em don't see eye-  
1217 to-eye to me, that's okay. But that's life, and that's the freedom we have. Thank y'all for coming out and  
1218 may you have a great week."  
1219

1220 Ms. Kohlmann: "I want to thank everybody for coming out, and I'm not gonna make a big speech,  
1221 but I do agree with you that people have the right to say what they want, and I'm a little disappointed in  
1222 some of the reaction that I see in back, and I just wish everybody would remember that everybody's in  
1223 this for the same reason. I don't think anybody's trying to be mean or anything. So, just get up and  
1224 speak. Have a good night."

1225  
1226 Mr. Smith: "Yes, the air conditioning up here is dripping. I want it to be in the minutes, so that  
1227 you wouldn't forget (*laughter*). It's hit me on the head and also on the shoulder. This is not the first time,  
1228 so let's don't forget. The other thing I'd like to say is thank you for sending me to the Municipal  
1229 Association meeting. I really appreciate it. I think it was worthwhile. I got some good information, and I  
1230 hope to be able to put it to use, and I'd like to thank Al Beck for his positive, positive, positive comments  
1231 on using the lakes. Thank you, Al."

1232  
1233 Ms. Dodge: "For the second time this month, the 7/19 article is the latest one, the Mayor has  
1234 seen fit to try my performance as a member of this council in *The Myrtle Beach Herald*, and I can truthfully  
1235 say I resent it. I resent it a great deal. It not only embarrasses me, but it also embarrasses the town, and  
1236 in my opinion, makes the Mayor look like the bully he is. I'd also like to point out that he has not chosen  
1237 to chastise any other councilmember from missing a meeting, which would make one question why is he  
1238 choosing only me. Just to give you some background information, first of all, I make every effort to attend  
1239 all council meetings. Sometimes it's not possible, but let me say, I've attended 13 out of 14 regular  
1240 council meetings so far this year. I've attended 14 special meetings, 3-days of budget hearings, as well  
1241 as 3 workshops. I've also attended some, but not all, citizen committee meetings, as well as meetings  
1242 sponsored by other municipalities, and the Municipal Association. In my opinion, that's a pretty good  
1243 record for this being a part time job, and you know what, if the Mayor disagrees with me, that's just too  
1244 darn bad. I'm happy with what I have done so far. I would also recommend he look at the attendance  
1245 record of all councilmembers, rather than just mine, and if he's going to make attendance an issue, rather  
1246 than singling out one specific person, he should include everyone on council who has missed a meeting  
1247 when he's handing out criticism. I'm tired of it."

1248  
1249 Mr. Johnson: "Alright, well, I wasn't gonna say anything, but here's the deal. People get up here  
1250 and (*expletive*) [complain] and moan about people missing meetings. I missed four meetings, and I  
1251 believe they were in a row, because I work for a living. The four meetings that I missed were during  
1252 business hours, and they all concerned the parking situation. My priority is my family first, and the Town  
1253 of Surfside Beach second. I make no apologies for that. My bread winning career is in insurance. I love  
1254 this town, and I love my family. I have my priorities in order, and I don't care if you get up here and  
1255 criticize me. I don't care if any of you criticize me, but if you start criticizing my family, my wife, and my  
1256 kids, then we're gonna have a problem, and I hope you take that to heart, because I'm very, very serious  
1257 about that. Ever since I moved; I was blessed enough to move to the north end of Surfside Beach. I  
1258 didn't think anything of it, and ever since I did, I have seen nothing but jealousy from people standing at  
1259 that podium and people standing outside and people talking behind my back, time and time and time  
1260 again, and I'm tired of it! (*Speaker's emphasis.*) Okay. I just want to go on the record of saying that. It's  
1261 a disgrace to this town, and it's a disgrace to the people that are doing it, and I make no apologies for my  
1262 prosperity, and my love for my family, and the love of the Town of Surfside Beach. Thank you for coming  
1263 out. God bless you."

1264  
1265 Mayor Samples: "I think enough has been said. Thank you all for coming out."

1266  
1267 **11. EXECUTIVE SESSION**

1268  
1269 **A. Pursuant to FOIA §30-4-70(a)(1) to discuss the appointment of a person to a public**  
1270 **body (See Business Item 7.E.)**

1271  
1272 Mr. Smith moved to enter executive session at 9:08 p.m. Mr. Johnson seconded. All voted in  
1273 favor. **MOTION CARRIED.**  
1274

1275 Mr. Johnson moved to reconvene regular session at 9:27 p.m. Ms. Mabry seconded. All voted in  
1276 favor. **MOTION CARRIED.**

1277  
1278 Mayor Samples said that no action was taken during executive session.

1279  
1280 Ms. Kohlmann moved to appoint Erin Adams to the recreation/special events committee. Mr.  
1281 Johnson seconded.

1282  
1283 Ms. Kohlmann, who is council liaison to the committee, said the recreation/special events  
1284 committee meetings were suspended until this position was filled. Ms. Kohlmann said for the record, "that  
1285 this is the final position to be filled, and the recreation/special events committee can commence with any  
1286 business."

1287  
1288 All voted in favor. **MOTION CARRIED.**

1289  
1290 **12. ADJOURNMENT.**

1291  
1292 Mr. Johnson moved to adjourn the meeting at 9:28 p.m. Ms. Mabry seconded. All voted in favor.  
1293 **MOTION CARRIED.**

# Proclamation #13-86

## Constitution Week September 17-23, 2013

**WHEREAS**, September 17, 2013, marks the 226<sup>th</sup> anniversary of the drafting of the Constitution of the United States of America by the Constitutional Convention; and

**WHEREAS**, It is fitting and proper to accord official recognition to this magnificent document and its memorable anniversary, and to the patriotic celebrations which will commemorate the occasion; and

**WHEREAS**, Public Law 915 guarantees the issuing of a proclamation each year by the President of the United States of America designating September 17 through 23 as Constitution Week.

**NOW, THEREFORE**, I, Douglas F. Samples, by virtue of the authority vested in me as Mayor of the Town of Surfside Beach, South Carolina, do hereby proclaim the week of September 17 through 23 as

## Constitution Week

**AND** ask its citizens to reaffirm the ideals held by the Authors and Framers of the Constitution as written in 1787 by vigilantly protecting the freedoms guaranteed to all citizens through this guardian of our liberties, remembering that lost rights may never be regained.

BE IT SO PROCLAIMED this 13<sup>th</sup> day of August 2013.

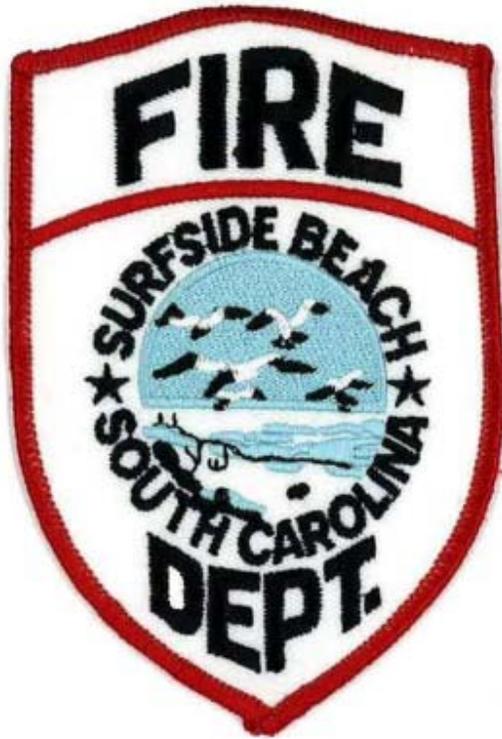

---

The Hon. Douglas F. Samples, Mayor

Attest:

---

Debra E. Herrmann, CMC, Town Clerk

No Incident Found	2
<b>Total</b>	<b>14</b>

## **Lost Estimates and Total Incidents**

No Dollar Loss for this reporting period

Total Incidents for July 2013 **{99}**

## **Additional information for July 2013**

All SCBA's {Self Contained Breathing Apparatus} monthly tests per NFPA Requirements; repairs were made on all packs, adjustments and batteries were completed.

Monthly Turn-out Gear inspection was completed per NFPA Requirements.

All apparatus equipment was checked and inventories verified for compliance to ISO and NFPA requirements.

Surfside Beach Fire Department Volunteer staffing levels has remained the same as last month. Currently we have 4 applications that have been given to the volunteer review committee for processing.

### **Fire Prevention Activities**

Completed Inspections	3
Pending Re-Inspections	8
Public Education Events	4
Plans Review	1
Pre Fire Plans {New}	3
Pre-Plans Revised / Up-Dated	4

### **Total Fire Prevention Activities for July 2013 {23}**

Captain Hans attended the monthly meetings of the Fire Life Safety Officers Association and the Fire Marshals Association of Horry and Georgetown County. He is continuing to work on developing a business training program to assist business owners and managers in a self inspection program to allow the owners to be ready for the yearly inspection, he has a target completion date of September 1, 2013.

During the month the scheduled businesses were inspected in accordance with ISO and ICC codes. The Fire Marshal will only be doing new business inspections and pre-plans during the time frame of May 15<sup>th</sup> until September 15<sup>th</sup> to allow our businesses to operate without interruption during the tourist season.

Public Education open house is set for Saturday October 12<sup>th</sup> at the fire station. Time will be from 10 am to 3 pm with fire engine rides, movies, fun activities, refreshments, and give away items. A full handout will be made and posted around town and on the Town website within a week.

## Training

Volunteer and Career personnel dedicated 287.75 hours to training and 153.05 hours responding to calls during the month.

Water rescue training was conducted in a joint effort with SBPD which allowed 16 FD personnel {4 Career and 12 Volunteers} to do extensive in the ocean water rescue techniques. Training was conducted by an outside instructor and the SBPD / SBFDF training Officers.

The training was well received by all who attended. Chief Keziah and I are very pleased with the progress of all who attended the training and how well our personnel worked together.

The joint training between SBPD and SBFDF has been working very well; Chief Keziah and I have been meeting on a regular basis to continue to build a strong working relationship between Police and Fire.

During the month of July, Captain Williams conducted the required training to comply with all the required standards. Training was conducted to the requirements as set forth by the Insurance Service Organization, South Carolina Fire Academy, National Fire Protection Association {NFPA}, and the Surfside Beach Fire Department SOG's.

Career personnel received an additional 10 hours of on-line training during the month.

Three of our personnel, 2 career and 1 volunteer attended classes at the National Fire Academy in Maryland.

## Staff Report

**Captain Mike Hans:** has been working on the Fire Prevention Week Open House that will be held at the fire station from 10 am to 3 pm on October 12, 2013.

He has begun to implement the pre-inspection program for our business owners.

The letters to all multiple occupancy buildings authorizing the removal of hose boxes and hose on standpipes has also begun to be distributed.

Captain Hans is beginning to get his hands on the Public Education portion of the job and is seeing the importance to a good fire education program.

He participated in the water rescue training completing the program with flying colors.

**Captain Prentice Williams:** He continues to do an outstanding job in developing education programs to get out volunteer and career firefighter's confident with their skills.

During the month he worked with the Police Training Officer in putting together a joint training program between Police and Fire. Members of the Police Department and the Fire Department completed a two day exercise in the ocean at 7<sup>th</sup> Ave. North.

Captain Williams continues to research training needs and has been working with the area departments on joint training.

During the month Captain Williams attended South Carolina Weekend at the National Fire Academy in Maryland, he attended several classes while there looking for new education opportunities that he can bring to the membership of SBF D.

Several new training props have been constructed and are being worked into his training schedule.

Captain Williams participated in the water rescue training completing the program with flying colors.

**Captain Robert Packard:** the apparatus inventory is complete and turn-out inventories have been completed along with condition reports on all PPE in our inventory. He is now working on the inventory of all equipment noting purchase dates if known and projected replacement dates.

He has been assigned the task to check and up-date the EOC/Hurricane supplies to insure that we are ready for an emergency should we have a storm.

**Engineer Ted Sacra:** Continues to enjoy his assignment working with Captain Williams in developing new training programs. He has been tasked with evaluating all of the departments rescue equipment and re-assigning the equipment to the rescue/squad unit. He will also be setting up a joint extrication drill with our mutual aid companies.

He is working on the up-coming night drills along with Captain Williams so that we are compliant to ISO requirements.

**Engineer Tom Zimpleman:** continues to be a hard worker and is assisting Captain Packard with the inventories and maintaining the small tools and equipment. He did a great job in the construction of the training props.

Engineer Zimpleman participated in the water rescue training completing the program with flying colors.

**Engineer Larry Carter:** continues working on pre-plans and has a target date of December 31 to bring all plans up-to-date. He has taken to his new position well and is become a valuable employee. He is assisting with the evaluation of the rescue equipment and equipment placement.

Engineer Carter participated in the water rescue training completing the program with flying colors.

**Chief Daniel Cimini:** On the evening of July 12, 2013 our units and HCFR Medic 31 was dispatched to a swimmer in distress. On arrival our personnel was told that a 14 year old male had gone under the water and had not been see since. Personnel from SBF D and SBPD began a visual search of the ocean up and down the beach from the last known location. The surf was extremely rough and it was almost impossible to launch the one Jet Ski that SBPD had, many attempts were made with personnel being beaten badly by the heavy waves. SBPD Officer Sliker was able to clear the waves and begin his search only to be forced back in do to the heavy surf conditions.

Acting Engineer Michael Medeiros organized a Daisy Chain of personnel and civilians in an attempt find the young man.

The crew and civilians in the daisy chain were near exhaustion after approximately 15 minutes and exited the ocean; Acting Engineer Michael Medeiros who was the end person in the ocean on the first daisy chain reorganized a second chain in an attempt to find the missing swimmer. Just as they were going to re-enter the water the victim seemed to pop up in the surf about 20 yards off shore, Engineer Medeiros and an SBFD Officer entered the ocean to grab the victim, all three were hit by heavy waves and went under the surf. The personnel kept hold of the victim and brought him to shore. Once on the shore EMT Michael Miller and Medic Tim Tucker began CPR and life saving procedures.

The victim was transported to the hospital, while en-route to the hospital the medical crew was able to get a pulse. The patient was then transported to MUSC where he remains in critical condition.

The SBPD, SBFD, and HCFR personnel are to be commended for their actions, the victim was under the water for over 30 minutes, the efforts of the crews were OUTSTANDING in their commitment to continue the search under such extreme conditions even when it appeared that the individual had drowned. Chief Keziah and I are preparing documents to recognize these individuals at the September Council meeting.

I am very proud of the efforts and perseverance of the SBPD, SBFD, and Medic 31 personnel.

The Emergency Operations plan has been sent to the Town Manager for review. Copies will be distributed to all staff and Council members as soon as all corrections are completed.

I contacted the County Emergency Management Director to request a Town Meeting to discuss the Hurricane Season and Evacuation procedures, and we scheduled one for August 1, 2013. I will council a report at the September meeting on the results of the meeting.

The Master Plan for the Department is moving along, but has been delayed slightly to complete the Hurricane plan; Safety Committee plan and I have a targeted completion date of September, 1 2013.

*Daniel J. Cimini*

**Fire Chief  
Surfside Beach**

## **Planning, Building & Zoning Report August 2013**

Staff issued 104 permits in July of this year, up from 60 issued last year. We had 71 inspections and issued 39 business licenses. 14 plan reviews were performed and several consultations with property owners and contractors.

Harbor Lights Development has requested the town take ownership/maintenance of the streets within the development. John Adair and I have met with the developer and gone over the changes/corrections and additional documents that must be received prior to staff bringing the request to Council for consideration. This request should be ready by the next regular meeting.

It has been questioned recently about what certifications/responsibilities each member of the Planning, Building & Zoning Department has. Each staff member has different certification requirements in addition to certification above and beyond what's required for the position.

The Building Official holds the Certified Building Official certification. This allows for commercial and residential building plan reviews, inspections, any enforcement issues having to do with the building codes and also the enforcement of the Property Maintenance Code. He also holds the Stormwater Plan Reviewer Certification. This certification allows for the review and approval of stormwater plans presented to the town. This in the past has been reviewed by an outside party.

The Director holds the Certification of Planning and zoning, this certification allows for the interpretation of the Town's Zoning Ordinance and enforcement, Land Development Regulations and Comprehensive Plan. I also have the Certified Floodplain Manager certification which allows for the enforcement and interpretation of the Floodplain Prevention Code as well as any additional requirements from FEMA involving flood prevention. I have recently obtained my Stormwater Inspector certification which allows me to perform on site stormwater inspections, with plans approved by the Building Official and inspections for compliance with our NPDES permit requirements. This in the past has also been done by an outside source. Bringing the stormwater plan review and stormwater inspections in house will allow the town to keep the fees collected in house as opposed to paying for the review and inspections to outside parties.

The Permit Technician has one year from his hire date to obtain the Permit Technician Certification.

The Town Code allows for the Town Administrator to designate who a "Code Enforcement Official" may be. The enforcement of the Code of Ordinances vary for each department; some Chapters and or sections are enforced strictly by the Police Department, other chapters and or sections are enforced by the Business License Inspector. Chapter 7 (Health and Sanitation) is enforced by the Planning, Building & Zoning Director, the Building Official as well as the Public Works Director.

**SURFSIDE BEACH POLICE DEPARTMENT**  
811 Pine Drive  
Surfside Beach, SC 29575

**Monthly Activity Report**  
**JUL 2013**  
**(1-JUL-31-JUL 13)**  
*Prepared by Rodney Keziah*

**INTRODUCTION:**

JULY 2013 statistics show an 11.3% increase in calls for service from last month (1161 to 1293). Arrest data between JULY 2012 and JULY 2013 showed a 17.3% increase (208 to 250).

As always, these numbers will be detailed for you in the Workload / Performance Metrics section of the report.

**PERSONNEL ACTIONS:**

On July 18, 2013 Sgt. Matt Prock received a full medical retirement pursuant to a shoulder injury that he received during the course of his employment. We will certainly miss him being around, and wish him and his family the best.

Sgt. Donnie Sliker has been transferred to replace Sgt. Prock as the lead investigator. Due to his re-assignment, Cpl. Lee Black has been promoted to Sgt., and has now been assigned as team leader for team 1 and 2. I wish both of these officers the best, as they are more than ready to take on their new assignments.

**HIGH RISK LAW ENFORCEMENT ACTIVITIES:**

SBPD officers conducted one vehicle pursuit during this reporting period, which was called off by supervisors upon its inception.

SBPD officers used two reportable levels of force during this reporting period (standard handcuffing, escort holds, etc. do not require additional reporting beyond our Uniform Crime Report – see following table for summary).

<b>SBPD - HIGH RISK LAW ENFORCEMENT ACTIVITIES (JULY 2013 Reporting Period)</b>						
DATE	ACTIVITY TYPE	OFFENSE	OFFICERS	ARREST	INJURIES	PROP. DAMAGE
02 JUL	Vehicle Pursuit	Possession Stolen Property/ Fail to Stop	PTL Ridgeway / Newton	Yes	None	No
This was a vehicle pursuit that was terminated by a supervisor immediately upon its inception. The driver and owner were located after Ridgeway was able to obtain the tag number from the vehicle. Upon locating the suspect, a large quantity of stolen merchandise from vehicle and residential burglaries was recovered. I commend the on-duty supervisor for his action of terminating the pursuit due to traffic and weather conditions that existed.						
04 JUL	Use of Force	Disorderly Conduct / Resisting Arrest	PTL Byrd	Yes	Minor	No
This was a use of force that originated from a loud party complaint. The suspect fled the scene, and was uncooperative to verbal commands when approached by officers. A taser was deployed to subdue the suspect.						
16 JUL	Use of Force	Unlawful Escape	PTL Byrd	Yes	None	No
The suspect fled from Horry County Sheriff's Officers during transportation loading at the jail. PTL Byrd was in his vehicle in the parking lot completing paperwork when he observed the suspect fleeing down Pine Drive while handcuffed. PTL Byrd pursued on foot and effected the arrest. See attached commendation for PTL Byrd concerning this arrest.						

**TRAINING:**

As always, officers maintained their Class 1 Law Enforcement licenses via online training provided by the SC Criminal Justice Academy, and continued to receive their mandated in-service hours through the SC Criminal Justice Academy online.

On July 10-11 Cpl. Ziolkowski and Ptl. Byrd attended a Drug Investigations Class hosted by DEA and held in Lexington SC. This was a very informative class dealing with all aspects of Drug Investigations including report writing, courtroom preparation, and asset forfeitures.

## **WORKLOAD / PERFORMANCE METRICS:**

As usual, we've included our Monthly Activity Report (along with the same period last year spreadsheet for comparison purposes). Also included are the usual supplemental reports: the Criminal Investigations log and the USMS Fugitive Task Force report.

Sgt. Bailey's participation in the US Marshalls Task Force assisted our agency in clearing 11 of our outstanding warrants and collecting over \$5500 in bond and fine money.

This month, SBPD officers issued 48 written warnings in lieu of Uniform Traffic Tickets or to record vehicles stopped for non-traffic related reasons (these are not reflected in our database totals).

## **NOTABLE EVENTS / INFORMATION**

July evolved into a very busy month, as the above stats show. We worked with increased staffing during the weekend of the 4<sup>th</sup>, and assisted with crowd control, security, and traffic control at the town celebration and fireworks display. All in all the weekend and events went well without any major problems.

On July 13, 2013 we assisted in an ocean rescue at 4<sup>th</sup> Avenue South beach access. I can only say that this was a prime example of a team working together (Police, Fire, and EMS) to save a young man's life. The young man was lost in the water for over 45 minutes. The ocean was very rough, and darkness made the rescue even tougher. The swimmer was located, dragged from the ocean and CPR was administered. On the way to the hospital, Horry CO EMS personnel were able to obtain a pulse, and he was eventually transported to Medial University of SC in Charleston. We received a very nice thank you card from the parents and family. The family has formed a website for status updates of his condition at <http://www.gofundme.com/evanmcreynolds>.

Ptl. Bryan Byrd received a letter of commendation for outstanding job performance in the capture of a jail inmate that had fled from a Horry County Sheriff's Transport Officer. Ptl. Byrd was completing paperwork inside of his patrol vehicle in the parking lot of the Police Department. Ptl. Byrd observed the inmate fleeing, and despite the head-start she had, he was able to close distance on her and take her back into custody. Ptl. Byrd showed excellent alertness, speed, and decision making in making the arrest.

Ptl. Byrd also received a letter of recognition for the arrest of a suspect during a night-time theft. On July 30, Ptl. Byrd was assigned to a burglary/theft detail in response to recent incidents of property loss in Sector 4 (south/beach area). Ptl. Byrd was able to locate a subject who had just committed a larceny from under a residence, make an arrest, and recover the victim's property.

SURFSIDE BEACH POLICE DEPARTMENT

# MEMORANDUM

To: Rodney Keziah; Chief  
From: Arron B. Miller; Captain *AM*  
Date: 29 July 2013  
Re: Recognition For Performance; Apprehension of Escapée 13006693

---

I request Officer Bryan Byrd be recognized for his performance on 16 July 2013 for apprehending an escapee from the Horry County Sheriff's Office transport unit.

On 16 July 2013 a 49 year old female (Myrtle Beach, SC) was arrested by the South Carolina Highway Patrol for DUI. She was brought to the SBPD Municipal Jail for booking and a breath test.

Later that morning, the female inmate was picked up by the Horry County Sheriff's Office inmate transport van/deputy. While being walked from the jail to the van, the female (cuffed in the front) ran from the deputy.

Officer Byrd, sitting in his vehicle at the station doing paperwork, saw the inmate and pursued her on foot. Despite her head-start on Officer Byrd, he was able to close on her to a distance where he could deploy his Taser and stop her.

Officer Byrd showed excellent alertness, speed, and decision making in using his Taser.

I request a copy of this memorandum be placed in his employee file and forwarded to he and his supervisors.

*Bryan -  
I totally Agree! Thanks  
for continuing to showing this  
high level of service!*

*Rodney -*

*cc: Capt. Miller  
Lt. Hoymann  
Sgt. Black -  
File -*

Thank you so much for your tireless efforts to rescue our Evan from drowning and washing out to sea last Saturday night. We were overwhelmed with emotion as we witnessed the many officers, firefighters, rescue workers, and citizens who risked their lives to rescue him, as well as the many prayers that went up for him as that boat that night for his safe return. Evan is in N.S.C. in Charleston right now, and we are all expecting GOD to make for his full recovery. Thank you for your continued prayers - they are powerful.

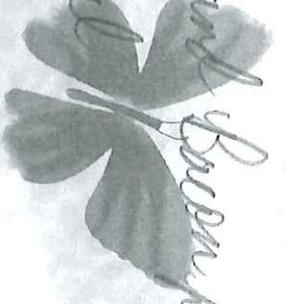

Your *Prayers* is truly appreciated.  
Thank you

God bless you as you continue with your efforts!

The McKeagles, Bivens, Brakes, Johnsons, Allen and Green families.

SURFSIDE BEACH POLICE DEPARTMENT

# MEMORANDUM

To: Rodney Keziah; Chief  
From: Arron B. Miller; Captain   
Date: 30 July 2013  
Re: Recognition For Performance; Arrest of Nighttime Theft Suspect 13007293

---

I request a copy of this memorandum be placed in Officer Bryan Byrd's employee file as a result of his performance on the night of 30 July 2013.

30 July 2013 Officer Bryan Byrd was assigned to a Burglary/Theft detail in response to recent incidents of property loss in Sector 4 (South/Beach). At about 2:00 a.m. Officer Byrd began surveillance of a male teen walking along 16<sup>th</sup> Avenue South. Officer Byrd noted he passed this teen on 2 occasions over about 20 minutes empty-handed. A short time later Officer Byrd saw the same teen carrying a cooler.

Officer Byrd maintained his concealment and notified other officers who responded. The teen was followed to a nearby residence and detained for interview. The teen subsequently admitted to stealing the cooler. He was also discovered to be intoxicated and carrying drugs and paraphernalia resulting in several criminal charges and the recovery of the victim's property.

It is of note that the offender lives in very close proximity to locations previously victimized by similar incidents of theft, the most recent only nights ago.

Officer Byrd is observed to have a keen eye for suspicious activity and has an extremely high rate of such captures and arrests.

*Bryan -  
Thanks Again for your dedicated Service -  
Your Proactivity continuously Pays JB!!  
cc: CAPT Miller  
Lt - Hogan  
Sgt - Black  
File -  
Thanks -  
Rodney K.*

STATE OF SOUTH CAROLINA ) AN ORDINANCE OF THE TOWN OF SURFSIDE BEACH  
 )  
COUNTY OF HORRY ) TO AMEND §3-23, REGISTRATION OF DOGS, TO EXEMPT  
 )  
TOWN OF SURFSIDE BEACH ) SERVICE DOGS FROM REGISTRATION FEES

**WHEREAS**, the Mayor and Town Council of the Town of Surfside Beach, in council duly assembled on July 9, 2013 unanimously voted to amend Section 3-23 of the Town Code of Ordinances to exempt service dogs from registration fees; and

**WHEREAS**, the Mayor and Town Council of the Town of Surfside Beach desire to document that action in the Town Code of Ordinances.

**NOW, THEREFORE**, Section 3-23, Registration of Dogs of the Code of Ordinances of the Town of Surfside Beach, South Carolina, is hereby amended to state:

Sec. 3-23. **Registration of dogs.** It shall be unlawful for any person who owns or who has in his control a dog over four (4) months of age to fail to register the dog by application for a certificate of registration and payment of a fee of ten dollars (\$10.00), **except for service dogs which shall be exempt from registration fees.** The town may from time to time offer a period for registration wherein the fee is waived or the applicable fee is designated for a specific pet related need. Certificates shall be numbered in the order of issue and shall be in force until June 1 each year and must be renewed annually with a payment of a current fee as provided for in the town's annual budget. All dogs registered shall wear a suitable collar for the attachment of the tag. The tag shall have the number of the registration certificate shown thereon. Any dog within the town not registered shall be impounded by the town, and turned over to a local humane shelter or animal control facility and become subject to adoption or be disposed of pursuant to state law.

All other portions of Chapter 3 are unchanged and shall remain in full force and effect.

**SEVERABILITY.** If any provision, clause, sentence, or paragraph of this ordinance or the application thereof to any person or circumstances shall be held invalid, that invalidity shall not affect the other provisions of this article, which can be given effect without the invalid provision or application, and to this end the provisions of this article are declared to be severable.

**EFFECT OF SECTION HEADINGS.** The headings or titles of the several sections hereof shall be solely for convenience of reference and shall not affect the meaning, construction, interpretation or effect of this ordinance.

**REPEAL AND EFFECTIVE DATE.** All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed. This ordinance shall take effect

immediately upon approval at second reading by the Town Council of the Town of Surfside Beach, South Carolina.

**BE IT ORDERED AND ORDAINED** by the Mayor and Town Council of the Town of Surfside Beach, South Carolina, in assembly and by the authority thereof, this 13<sup>th</sup> day of \_\_\_\_\_ 2013.

COUNTY OF Horry )  
 )  
TOWN OF SURFSIDE BEACH )

AN ORDINANCE OF THE TOWN OF SURFSIDE BEACH  
TO AMEND §2-20, COMPENSATION AND BENEFITS OF  
TOWN COUNCIL, ¶(b), *Expense Reimbursement*,  
Specifically ¶¶ Travel Days Per Diem.

**WHEREAS**, the Mayor and Town Council of the Town of Surfside Beach, in council duly assembled on desire to amend the Town Code of Ordinances Section 2-20, Compensation and Benefits of Town Council, specifically paragraph (b) *Expense reimbursement, subparagraph entitled Travel days per diem*; and

**NOW, THEREFORE**, Section 2-20, Paragraph (b), subparagraph entitled Travel Days per diem of the Town Code of Ordinances of the Town of Surfside Beach, South Carolina, is hereby amended to state:

Sec. 2-20. Compensation and benefits of town council.

(b) Expense reimbursement. Any member of town council may receive payment for actual expenses incurred in the performance of their official duties, subject to:

The Town of Surfside Beach will reimburse town councilmembers for reasonable business travel expenses incurred while attending the annual retreat, official town business, and training. All business travel must be approved in advance by the town administrator. Councilmembers whose travel plans have been approved may request the town clerk to submit registration requests and make travel arrangements. The actual costs of travel, lodging, and other expenses directly related to accomplishing business travel objectives will be reimbursed by Surfside Beach.

~~Councilmembers are expected to limit expenses to reasonable amounts, i.e., amounts the councilmember would normally spend if he or she were paying.~~ Expenses that generally will be reimbursed and require a receipt include the following: Airfare or train fare for travel in coach or economy class or the lowest available fare; car rental fees, only for compact or midsize cars; cost of negotiated rate for accommodations at the host lodging hotel or motel; fares for shuttle or airport bus service, where available, costs of public transportation for other ground travel; taxi fares, when there is no less expensive option; mileage costs for use of personal vehicles at the current IRS mileage rate.

Travel days per diem. When authorized to travel on official business whereby overnight lodging is required, councilmembers shall receive a flat rate ~~reimbursement~~ **per diem** of eighty dollars (\$80.00) per day, **which shall be considered taxable income, to** cover the costs of meals, tolls, parking, snacks, tips, and all other incidental expenses. Receipts for these expenses are not required.

Note: Personal entertainment and personal care items are not reimbursed. Councilmembers who are involved in an accident while traveling on business should promptly report the incident to the town administrator. Vehicles owned, leased, or rented by Surfside Beach may not be used for personal use without prior approval. A family member or friend may accompany councilmembers on business travel when the presence of a companion will not interfere with successful completion of business objectives. **Pursuant to South Carolina Code §5-7-170, the Town of Surfside Beach shall not pay any expenses for a travelling companion.** ~~The councilmember is responsible for all expenses incurred by a companion. Receipts should be clearly marked to identify expenses reimbursable to the councilmember.~~

When travel is completed councilmembers desiring reimbursement for mileage should submit ~~original required reimbursable receipts and~~ total mileage to the town clerk within thirty (30) days. Requests for reimbursement that are not made in a timely manner may be denied. Abuse of this business

travel expense policy, including falsifying expense reports to reflect costs not actually incurred, is prohibited.

All other portions of Section 2-20 are unchanged and shall remain in full force and effect.

**SEVERABILITY.** If any provision, clause, sentence, or paragraph of this ordinance or the application thereof to any person or circumstances shall be held invalid, that invalidity shall not affect the other provisions of this article, which can be given effect without the invalid provision or application, and to this end the provisions of this article are declared to be severable.

**EFFECT OF SECTION HEADINGS.** The headings or titles of the several sections hereof shall be solely for convenience of reference and shall not affect the meaning, construction, interpretation or effect of this ordinance.

**REPEAL AND EFFECTIVE DATE.** All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed. This ordinance shall take effect immediately upon approval at second reading by the Town Council of the Town of Surfside Beach, South Carolina.

**BE IT ORDERED AND ORDAINED** by the Mayor and Town Council of the Town of Surfside Beach, South Carolina, in assembly and by the authority thereof, this \_\_\_\_ day of \_\_\_\_\_ 2013.

# Decision Paper

*Written By:* Sabrina Morris, Director of Planning, Building & Zoning

1. **SUBJECT:** Allowed uses in town owned stormwater ponds
2. **FOR:** An Ordinance to amend Chapter 12, Streets, Sidewalks, Beaches, other Public Places, to add Article V, Stormwater Retention Ponds
3. **PURPOSE:** to establish an ordinance that regulates uses on the town owned retention ponds.
4. **ASSUMPTIONS:** By approving the ordinance and limiting uses on the town's stormwater ponds it sets defined limits are to what will be permitted. It also acknowledges that the stormwater ponds are not recreational ponds.
5. **FACTS:** Currently the Council has approved a resolution prohibiting certain uses on the stormwater ponds. Staff has done additional research and feels the ordinance, as presented should meet the needs of the town as well as the citizens.
6. **RECOMMENDATION:** Approve the ordinance as presented.
7. **RATIONALE FOR RECOMMENDATION:** There are no ordinances in place now regarding uses on the lakes (only a resolution). The town needs to establish laws and have the ability to enforce such laws.

STATE OF SOUTH CAROLINA )  
 )  
COUNTY OF HORRY )  
 )  
TOWN OF SURFSIDE BEACH )

**AN ORDINANCE OF THE TOWN OF SURFSIDE BEACH  
TO AMEND CHAPTER 12, STREETS, SIDEWALKS, BEACHES,  
OTHER PUBLIC PLACES, TO ADD ARTICLE V, STORMWATER  
RETENTION PONDS**

**WHEREAS**, the Mayor and Town Council of the Town of Surfside Beach, in council duly assembled on July 12, 2013 adopted Resolution #13-138 to allow Canoes, Kayaks, and Small Paddle Boats on Town Lakes and to Prohibit all Motorized Water Vehicles and any other type boat on Town Lakes; and

**WHEREAS**, Staff was directed to present an ordinance to codify said Resolution #13-138 and after further research have made changes based on research and observation.

**NOW, THEREFORE**, the Code of Ordinances of the Town of Surfside Beach, South Carolina, Chapter 12, Streets, Sidewalks, Beaches, Other Public Places, is hereby amended to add Article V, Stormwater Retention Ponds, which said Article V shall state:

**Article V. Stormwater Retention Ponds**

**12.100 Authority.** The Town Council of Surfside Beach has determined that the Public Works Director or designee; and the Surfside Beach Police Department shall have jurisdiction to administer and enforce the provisions of this Article.

**12.101 Definitions.**

a. Storm water Retention Ponds. Stormwater retention ponds include all bodies of water located within the corporate limits of the Town of Surfside Beach that are commonly referred to as "town lakes." Said storm water retention ponds have a minimal fresh water supply, and are primarily filled with stormwater runoff from throughout the town and from Horry County.

b. Boats. For the purposes of this chapter, a boat is defined as a small, open vessel for traveling on water.

**12.102 Operation of non-motorized boats and boats with small electric trolling motors not to exceed 80 lbs. of thrust shall be allowed on town owned retention ponds.**

**12.103 Storage**

Boats allowed under Section 12.102 when not in use, must be secured; in the event of a storm warning all boats must be removed from the water and secured on private property. In no case shall remain in the retention ponds during non-daylight hours.

**12.104 Prohibited boats.**

All other types of boats or watercraft are prohibited on the stormwater retention ponds.

**12.105 Maintenance of Stormwater Retention Ponds.**

The Town of Surfside Beach reserves the right to use motorized boats to properly treat and maintain the town's stormwater retention ponds, and to employ commercial businesses that may use barges or motorized boats for projects to improve and maintain the stormwater retention ponds.

**12.106 Penalties.**

It shall be unlawful for any person to violate any provisions within this Chapter. Any violator shall appear in the municipal court of the town and be subject to a maximum misdemeanor fine of five hundred dollars (\$500.00) plus any local, state or federal assessments or imprisonment for not more than thirty (30) days for each offense. Nothing in this section shall prevent the town from taking such other lawful action as necessary to prevent or remedy a violation.

All other portions of Chapter 12 are unchanged and shall remain in full force and effect.

**SEVERABILITY.** If any provision, clause, sentence, or paragraph of this ordinance or the application thereof to any person or circumstances shall be held invalid, that invalidity shall not affect the other provisions of this article, which can be given effect without the invalid provision or application, and to this end the provisions of this article are declared to be severable.

**EFFECT OF SECTION HEADINGS.** The headings or titles of the several sections hereof shall be solely for convenience of reference and shall not affect the meaning, construction, interpretation or effect of this ordinance.

**REPEAL AND EFFECTIVE DATE.** All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed. This ordinance shall take effect immediately upon approval at second reading by the Town Council of the Town of Surfside Beach, South Carolina.

**BE IT ORDERED AND ORDAINED** by the Mayor and Town Council of the Town of Surfside Beach, South Carolina, in assembly and by the authority thereof, this \_\_\_\_ day of \_\_\_\_\_ 2013.

TOWN OF SURFSIDE BEACH )

**AN ORDINANCE OF THE TOWN OF SURFSIDE BEACH  
TO AMEND CHAPTER 12, STREETS, SIDEWALKS, BEACHES,  
OTHER PUBLIC PLACES, TO ADD ARTICLE V, STORMWATER  
RETENTION PONDS**

**WHEREAS**, the Mayor and Town Council of the Town of Surfside Beach, in council duly assembled on July 12, 2013 adopted Resolution #13-138 to allow Canoes, Kayaks, and Small Paddle Boats on Town Lakes and to Prohibit all Motorized Water Vehicles and any other type boat on Town Lakes; and

**WHEREAS**, Staff was directed to present an ordinance to codify said Resolution #13-138.

**NOW, THEREFORE**, the Code of Ordinances of the Town of Surfside Beach, South Carolina, Chapter 12, Streets, Sidewalks, Beaches, Other Public Places, is hereby amended to add Article V, Stormwater Retention Ponds, which said Article V shall state:

**Article V. Stormwater Retention Ponds**

**12.100 Authority.** The Town Council of Surfside Beach has determined that the Public Works Director; the Planning & Zoning Director; the Building Official, and the Surfside Beach Police Department shall have jurisdiction to administer and enforce the provisions of this Article.

**12.101 Definitions.**

a. **Storm water Retention Ponds.** Stormwater retention ponds include all bodies of water located within the corporate limits of the Town of Surfside Beach that are commonly referred to as "town lakes." Said storm water retention ponds have a minimal fresh water supply, and are primarily filled with stormwater runoff from throughout the town and from Horry County.

b. **Boats.** For the purposes of this chapter, a boat is defined as a small, open vessel for traveling on water.

**12.102 Operation of ~~small paddle~~ non-motorized boats.**

Recreational boating is limited to the daylight hours, **sunrise to sun set**, in the storm water retention ponds to the use of **non-motorized boats less than 18 feet long**. ~~small paddle boats identified as four (4) man canoes; two (2) man kayaks, and two (2) man paddle boats.~~ **Persons operating a boat on the storm water retention ponds must have a U.S. Coast Guard approved life jacket for each person in the boat.**

**12.103 Prohibited boats.**

All other types of boats or watercraft are prohibited on the stormwater retention ponds, including but not limited to, any motorized boat or watercraft; commercial boats (unless part of a town approved project); jet skis; Sea Do boats; barges; houseboats, and any other type boat except those set out in Section 12.102 herein.

**12.104 Storage.**

No watercraft shall remain in a storm water retention pond overnight. Watercraft shall be removed daily and be stored **out of the water** on the owner's **property** land.

**12.105 Maintenance of Stormwater Retention Ponds.**

The Town of Surfside Beach reserves the right to use motorized boats to properly treat and maintain the town's stormwater retention ponds, and to employ commercial businesses that may use barges or motorized boats for projects to improve and maintain the stormwater retention ponds.

**12.016 Penalties.**

Any violation of this section shall be punished by a fine not exceeding **one hundred (\$100) dollars**, ~~five hundred (\$500) dollars~~, plus fees and assessments. ~~or by imprisonment for a period not exceeding thirty (30) days.~~ Each day of any violation of this Section shall continue shall constitute a separate offense.

All other portions of Chapter 12 are unchanged and shall remain in full force and effect.

**SEVERABILITY.** If any provision, clause, sentence, or paragraph of this ordinance or the application thereof to any person or circumstances shall be held invalid, that invalidity shall not affect the other provisions of this article, which can be given effect without the invalid provision or application, and to this end the provisions of this article are declared to be severable.

# Decision Paper

**Written By:** Rodney L. Keziah, Chief of Police

1. **SUBJECT:** Parking against the proper flow traffic.
2. **FOR:** To amend Chapter 9, Section 9-7 Motor Vehicles and Traffic, No Parking Places.
3. **PURPOSE:** To amend the above chapter to prohibit the parking in a metered space, pay station area, or upon any public right of way while the vehicle is facing against the proper flow of traffic unless directed by a law enforcement officer.
4. **FACTS:**
  - a. Officers have observed a recent increase of vehicles parking against the flow of traffic. It is inferred that operators of the vehicles must drive through on-coming lanes of traffic to park, and also exit the parking space back onto the roadway. This becomes a safety and legal issue with vehicles driving against traffic in an effort to park.
  - b. South Carolina Code of Laws 56-5-2560 addresses the prohibition of wrong way parking when parking next to a curb.
  - c. The current state law does not address wrong way parking when no curb is present adjacent to the roadway.
5. **IMPACT OF SUCCESS OR FAILURE:** The passing of this ordinance would give law enforcement and parking enforcement contractors the needed tools to address the issue of wrong way parking.
6. **RECOMMENDATION:** To adopt a Town Ordinance to prohibit the parking in a metered space, pay station area, or upon any public right of way while the vehicle is facing against the proper flow of traffic unless directed by a law enforcement officer.

**BE IT ORDERED AND ORDAINED** by the Mayor and Town Council of the Town of Surfside Beach, South Carolina, in assembly and by the authority thereof, this \_\_\_ day of \_\_\_\_\_ 2013.

Draft

# Decision Paper

*Written By:* Sabrina Morris, Director of Planning, Building & Zoning

1. **SUBJECT:** The requirement of a 2 hr. fire wall in townhouses/duplexes and require 15 inches between water closet and shower.
2. **FOR:** An Ordinance to amend Chapter 13, Article II Section 13-23 to add requirements for 2 hr. fire walls in townhouses/duplexes and require 15 inches between water closet and shower.
3. **PURPOSE:** To require a more stringent enforcement tool for fire walls in townhouses/duplexes as well as a more stringent requirement than the Residential Building Codes that deal with distance between the water closet and the shower.
4. **ASSUMPTIONS:** Staff is concerned with the requirements being more stringent than that of the IBC codes contractors and or homebuilders may not be inclined to build in the Town limits if additional requirements above and beyond what the state requires are mandated.
5. **FACTS:** Engineers are designing plans to meet the 2012 Building Codes. If this ordinance is approved, staff will require amendments to the drawings, which not only means a delay in the project, but an additional cost to the property owner.
6. **RECOMMENDATION:** This ordinance has been recommended by Councilmember Smith.
7. **RATIONALE FOR RECOMMENDATION:** Councilmember Smith stated the 2 hr fire wall should remain due to safety reasons; regardless of the installation of a sprinkler system. He also voiced concern in regards to the small area between the water closet and the shower (the building code requires a minimum of 12 inches).

- (iv) All collected funds shall be turned into the Finance Department by the next business day
- (iv) The Finance Department shall identify the particular project and keep an accounting of all solicited funds for each project and/or event
- (v) Expenditures, preapproved by council, must be accompanied by original receipt(s) and/or original invoice(s) and shall be presented to the Town Administrator for payment within the appropriate timeframe.

(c) Penalties for failure to comply.

It shall be unlawful for any person to violate any provisions within this Chapter. Any violator shall appear in the municipal court of the town and be subject to a maximum misdemeanor fine of five hundred (\$500) dollars, plus any local, state or federal assessments or imprisonment for not more than thirty (30) days for each offense. Nothing in this section shall prevent the town from taking such other lawful action as necessary to prevent or remedy a violation.

All other portions of Chapter 4 are unchanged and shall remain in full force and effect.

**SEVERABILITY.** If any provision, clause, sentence, or paragraph of this ordinance or the application thereof to any person or circumstances shall be held invalid, that invalidity shall not affect the other provisions of this article, which can be given effect without the invalid provision or application, and to this end the provisions of this article are declared to be severable.

**EFFECT OF SECTION HEADINGS.** The headings or titles of the several sections hereof shall be solely for convenience of reference and shall not affect the meaning, construction, interpretation or effect of this ordinance.

**REPEAL AND EFFECTIVE DATE.** All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed. This ordinance shall take effect immediately upon approval at second reading by the Town Council of the Town of Surfside Beach, South Carolina.

**BE IT ORDERED AND ORDAINED** by the Mayor and Town Council of the Town of Surfside Beach, South Carolina, in assembly and by the authority thereof, this \_\_\_ day of \_\_\_\_\_ 2013.

**Resolution #13-139**

***To Promote Work Place Safety***

**Whereas**, the Mayor and Town Council recognize that the prevention of accidents and promotion of work place safety affect employees, property, and the public and that promoting work place safety will enhance the operating efficiency of Town government; and

**Whereas**, a proactive safety emphasis posture requires that safety training be provided for employees, and that sound procedures are in place to protect employees and equipment is of primary consideration and takes precedence over expediency in all operations.

**NOW, THEREFORE, BE IT RESOLVED**, that the Town of Surfside Beach will endeavor to provide a safe work environment that is free of recognized hazards through the establishment and implementation of safety policies and procedures, with subsequent amendments and additions, designed to provide protection to Town employees, its citizens, public and private property, and the general public.

**NOW, THEREFORE, BE IT FURTHER RESOLVED**, that the Town of Surfside Beach will support compliance with all Federal and State safety regulations; provide and require the use of personal protective equipment by all employees; and ensure that all employees are advised of and understand their safety responsibilities in the performance of their work.

BE IT SO RESOLVED. Signed, sealed and dated this 13<sup>th</sup> day of August 2013.

## Memorandum

---

To: Town Council  
From: Debra E. Herrmann, CMC, Town Clerk  
Date: August 8, 2013  
Re: Committee Appointments

All committees with vacancies are listed in the event a Town Councilmember has a nomination he or she wishes to offer. Advertising for the following vacancies have been on-going since June 3rd. Notices continue to be published in the weekly "Meetings & Events" announcement that is sent to approximately 591 email addresses. Notices are also published on the town website; Surfside Beach Facebook page; Town Clerk Facebook page, and posted on bulletin boards in town hall, outside council chambers, the fire station and the civic center. Advertising will continue until all positions are filled.

**Construction Board of Adjustments & Appeals** (1 vacancy) Members of this board must be skilled in construction trades (i.e. licensed contractor, engineer, electrician, plumber, etc.) This committee hears appeals to decisions made by the building department. Town residency is not required.

Construction Board of Adjustment & Appeals - **No new volunteers.**

**Senior Citizens Committee** (4 vacancies) Members of this committee recommend programs and policies to Town Council that promotes senior citizen involvement and participation while promoting a senior citizen friendly atmosphere within the town. Town residency is required.

Senior Citizens Committee –

**Cindy McLaughlin resigned**  
**Joe Buczek, volunteer**  
**Lonnie Hopkins, volunteer**  
**George Moustakis, volunteer**  
**William G. "Bill" Thomas, Jr. volunteer**

**Stormwater Committee** (1 vacancy-expired term and member does not wish to be reappointed.) Members of this committee discuss and make recommendations on the town's stormwater system and projects. Town residency is required.

Stormwater Committee - **Mr. Alan Beck volunteered.**

Good morning,

Thank you for your enthusiasm for serving the Town of Surfside Beach and its citizens.

The vacancies will be on the agenda, even if the nominees do not respond, but a personal note from the nominee would assure Town Council that he is willing to serve.

As of this writing, none of the nominees have submitted statements of interest in serving on the Senior Citizens committee. Please ask each of them to send either an email message, telephone me at 843.913.6333, or visit me at town hall **today before 5:00 p.m.** so their statements may be placed in the Town Council meeting packages.

Again, thank you for your efforts.

**Subject:** RE: Senior Citizens Advisory Committee

Hello Debra and the Town Council. I will be happy to serve on the Senior Citizens Advisory Committee. My wife and I have been town residents for about 12 years and we truly enjoy living here. One of the things that contribute to a town being a great place to live is when people get to know and interact with each other. I would imagine that most of the people living in the Grand Strand area are from other regions of the Country and therefore have fewer acquaintances here than they did back in their last residences. If we can plan and have activities that will bring people together, it will certainly add to their enjoyment of living here in Surfside Beach.

Shelby,  
Wonderful Job!!!!!!  
If they get appointed quickly we can have a meeting in August.  
I've gotten 199/1650 mail responses to the survey.  
That is a response rate of 12.1% which is good for surveys.  
Thinking of first breaking the responses down by age group to see if responses are a function of age (younger groups would want more physical activities and older groups want less physical activities).  
Then summarize and rank by responses per survey question.  
Take data and input on EXCEL for ease of understanding.  
Then make presentation and recommendations to Mayor and Council.

Dear Mayor and Council,

If possible please allow these appointments to the Senior Advisory Committee to be approved ASAP so we can meet on Monday, 26-August-2013 from 530 to 630 in the 2nd Floor Meeting Room of the Fire Station. Lots of work to be done on the Senior Survey and I want to be able to have an orientation meeting and find a volunteer to be Secretary of our Committee.

Thanks in advance for your help and assistance

God Bless  
-Ralph

Debra, Please be advised that we have 4 residents that wish to become members of the Surfside Beach Senior Citizens Advisory Committee. All are long time residents looking forward to providing insight and ideas to help Seniors' activities, events, and community services provided to Seniors. By confirming & forwarding this email to you (by 5pm Wed 8/7), each is officially requesting Town Council approval at the next August 13th council meeting. Lonnie Hopkins will submit request to you at Town Hall.

**Subject:** Pier voucher proposal

Dear Ms. Fellner

It hardly seems possible that the season is half way through; I hope it has gone well for you. We would like to propose an on-going relationship with the Town and Surfside Beach Resort in which we would pre-purchase passes for our guests to use the pier at a rate of fifty cents per pass. We would purchase these in increments of at least 1000. We would also add this to packages we would be marketing which would enhance the Town/Pier's presence on the internet even more. We truly want to partner with the Town in every way possible to be a part of continuing to grow our beautiful town.

Sincerely,

Phil

Subject: Senior Citizen Advisory Meeting

Ralph,

I regret that I will no longer be available to actively participate as a volunteer on the Senior Citizen Advisory Council. Over the course of the last 3 months, I have retired from Hospice Care of South Carolina and I started my own company, iImages Marketing, with offices in West Virginia and Surfside Beach.

Unfortunately, the company in West Virginia is where I will be devoting most of my time which will limit the amount of free time I will have when here at the beach.

I wish you and the others the best as you continue your extraordinary efforts to positively impact the quality of life for seniors living in our great town. One day I am certain that my husband and I will have the time to enjoy the fruits of your labor!

Respectfully,

Cindy McLaughlin

**Subject:** RE: Senior Citizens Advisory Committee

Hello Debra and the Town Council. I will be happy to serve on the Senior Citizens Advisory Committee. My wife and I have been town residents for about 12 years and we truly enjoy living here. One of the things that contribute to a town being a great place to live is when people get to know and interact with each other. I would imagine that most of the people living in the Grand Strand area are from other regions of the Country and therefore have fewer acquaintances here than they did back in their last residences. If we can plan and have activities that will bring people together, it will certainly add to their enjoyment of living here in Surfside Beach.

Joe Buczek

**Subject:** RE: Senior Citizens Advisory Committee

Good morning,

Thank you for your enthusiasm for serving the Town of Surfside Beach and its citizens.

The vacancies will be on the agenda, even if the nominees do not respond, but a personal note from the nominee would assure Town Council that he is willing to serve.

As of this writing, none of the nominees have submitted statements of interest in serving on the Senior Citizens committee. Please ask each of them to send either an email message, telephone me at 843.913.6333, or visit me at town hall **today before 5:00 p.m.** so their statements may be placed in the Town Council meeting packages.

Again, thank you for your efforts.

Debra

From: Lonnie Hopkins

TO: Debra Hermann - Surfside Beach, town clerk.

subject: Request to Join The Senior Citizens  
advisory Committee.

Date: 8-7-13

Debra:

I am interested in serving on the Senior Citizens advisory committee. Having lived in Surfside Beach for 20 years, I could provide some insight for continuous improvements for the town and its senior citizens.

I don't have an "E" mail account, so any communication would have to be by telephone (843-238-5099) or mail service. When I stopped working quit, I cancelled the "E" mail account.

Regards

Lonnie Hopkins

712 Cedar Dr. N.

Surfside Beach, SC. 29575

George Moustakis

I sent you a note the other day that I would be interested in joining the Sr. Citizens Advisory Committee. Several years ago I served on the Zoning Appeals Board for 3 years. My personal email addr. Is [gmoustakis@sc.rr.com](mailto:gmoustakis@sc.rr.com). I've had a problem with my system and the email was never sent.....

**Subject:** Re: Senior Citizens Advisory Committee

Shelby,  
Wonderful Job!!!!!!  
If they get appointed quickly we can have a meeting in August.  
I've gotten 199/1650 mail responses to the survey.  
That is a response rate of 12.1% which is good for surveys.  
Thinking of first breaking the responses down by age group to see if responses are a function of age (younger groups would want more physical activities and older groups want less physical activities).  
Then summarize and rank by responses per survey question.  
Take data and input on EXCEL for ease of understanding.  
Then make presentation and recommendations to Mayor and Council.

Dear Mayor and Council,

If possible please allow these appointments to the Senior Advisory Committee to be approved ASAP so we can meet on Monday, 26-August-2013 from 530 to 630 in the 2nd Floor Meeting Room of the Fire Station. Lots of work to be done on the Senior Survey and I want to be able to have an orientation meeting and find a volunteer to be Secretary of our Committee.

Thanks in advance for your help and assistance

God Bless

-Ralph

Subject: Senior Citizens Advisory Committee

Debra, Please be advised that we have 4 residents that wish to become members of the Surfside Beach Senior Citizens Advisory Committee. All are long time residents looking forward to providing insight and ideas to help Seniors' activities, events, and community services provided to Seniors. By confirming & forwarding this email to you (by 5pm Wed 8/7), each is officially requesting Town Council approval at the next August 13th council meeting. Lonnie Hopkins will submit request to you at Town Hall.

# Surfside Beach councilman asks for jury trial in trash case

## Stevens clears yard after fines pile up

TOM O'DARE  
HERALD

Surfside Beach Town Councilmanandle Stevens has requested a jury trial in connection with the fines levied against him for not cleaning his yard. Stevens was notified by the town in

the spring that he needed to clean debris and other materials from his residential property. After a series of warnings, the town levied a fine of \$1,092 a day until the yard was cleared.

The summons carried a municipal court appearance that was scheduled for this week.

Stevens notified the town court that he wants a jury trial, which pushed his court appearance back until mid-October, according to court officials. There will be a pre-trial meeting in September prior to the court date.

Stevens said he felt it was neces-

Stevens

sary to have a jury of his peers decide the outcome of his situation.

He added that he has spent more than \$1,600 dollars in labor costs cleaning up his yard.

"I had promised my wife that I would clean the yard and make improvements after we got back from a vacation in Key West this spring," Stevens said. "Then both of us got sick and I had not gotten around to it before I was notified in May about

the problem."

Town officials said Stevens was first warned in April about the problem, but he insists he didn't get an official notice until May 14.

Stevens was given an extension to get his yard cleaned. In June, after town officials say no noticeable work had been done, a summons was issued.

See STEVENS, Page 3A

## STEVENS: Says he was only one to get a summons

FROM PAGE 1A

The councilman said he has town records that show more than 70 notices were handed out about cleaning up property but he was the only person to receive a court summons.

"I am convinced this was completely politically motivated," he said. "To be the only person to be summoned out of more than 70 people is very suspicious."

Town officials said the other property owners had complied with any warnings and a summons was not necessary to be issued in their cases.

**To:** mfellner@surfsidebeach.org  
**Subject:** Pier voucher proposal

Dear Ms. Fellner

It hardly seems possible that the season is half way through; I hope it has gone well for you. We would like to propose an on-going relationship with the Town and Surfside Beach Resort in which we would pre-purchase passes for our guests to use the pier at a rate of fifty cents per pass. We would purchase these in increments of at least 1000. We would also add this to packages we would be marketing which would enhance the Town/Pier's presence on the internet even more. We truly want to partner with the Town in every way possible to be a part of continuing to grow our beautiful town.

Sincerely,  
Phil
