Anticipated Revenues and Millage Allocation were discussed; millage is allocated between three funds: general fund; capital replacement, and capital projects-stormwater.

General Fund Parking and Land Reserve receives all fees from the town’s parking function; citations, and other parking revenue. Using this schedule, the town would have over $2 million for beach renourishment at the end of ten years. There were no objections.

Surfside Pier staff anticipates bringing an ordinance for consideration to an upcoming meeting to provide for the issuance and sale of general obligation bonds in the amount of approximately $1.5 million to use for pier reconstruction until FEMA grant funds reimburse the town.

General Comments

Request to retrofit 13th Avenue South restroom to comply with ADA. That is a flood zone and any changes would require with current Coastal A Code; not feasible.

Request for deck and walkway on Cedar Drive by Dogwood Lake. New drawings were requested that will be presented to the Keep Surfside Beach Beautiful Committee for recommendation to council that scale down the proposal. Public works to fill in or pipe the ditch to make more pedestrian friendly.

If council decided to move forward with these requests, funding would have to be through a tax increase.

ADJOURNMENT. Mayor Childs adjourned the meeting at 1:10 p.m.
